

FLEET FREEDOM®

Fleet Freedom® provides a completely seamless, fully integrated Fleet, Dispatch, Mobile Employee & Asset Equipment Management service in one easy to use, web-based platform.

Since 2001, Fleet Freedom® has been bridging the gap between the back office and mobile resources. Our MRM service allows companies to communicate with mobile employees and manage productivity, while providing Dispatch services and valuable navigation tools to their employees.

Fleet Management

Our Fleet Management services combine automated vehicle location with Dispatch, Driver ID, vehicle management and maintenance. The Fleet Freedom® web portal is used to see current vehicle locations, driver status and assigned tasks.

Fleet Managers and Dispatchers can seamlessly manage daily operations. Using Fleet Freedom®, managers can assign new tasks to on-site workers, communicate with mobile employees and see location based information, all in one place.

Why Fleet Freedom®?

- ▶ Recurring revenue streams with limitless earning potential
- ▶ Margins on application hosting, data services and hardware sales
- ▶ Android, iOS and Garmin/Magellan commercial devices
- ▶ Over 15 years of experience
- ▶ Proven process & seamless execution
- ▶ Extensive training and customer support
- ▶ Sales and marketing support
- ▶ Fleet Freedom® is the first company to put together a Fleet, Dispatch and Mobile Resource Management product into a single integrated, mapped interface.
