

Vehicle Management

Wherever your business goes Fleet Freedom® can help you find it!

Fleet Freedom® is a first-of-its-kind, web-based location and fleet management application. Our clients use this service to see real-time location of assets and run historical summary reports on behaviours, actions and exceptions. Clients can customize reports and notifications to track geo-zone based events and driver behaviours such as speeding and idle time.

Tracking your Fleet of Vehicles is a Breeze with the Fleet Freedom® Application

Fleet Inventory ▶ Vehicles, equipment, and assets are added into Fleet Freedom® to help you manage your Mobile Resources. Make, model, year, VIN, license plate, job function and notes are provided to help better manage your fleet. Live location and asset location history reports are provided for effective dispatch, vehicle utilization reports and maintenance.

Custom Reports ▶ Our reports are fully customizable. Build your reports to track utilization and maintenance data for vehicles and assets, or review employee productivity data and driver behaviour reports, all in the comfort of the Fleet Freedom® portal. In addition, you can now run punch clock and payroll reports from Fleet Freedom®.

Compatibility ▶ Fleet Freedom® is compatible with many of the industry's most popular GPS modems and mobile devices.

Knowledge ▶ Vehicle tracking gives you access to see your vehicle's current speed, engine idle state, location, address, heading, GPS odometer and geo-zone status. Fully compatible with CANBUS via OBDII and JBUS, Fleet Freedom® can also display fuel economy, fault codes, Engine RPM's and a number of other standard engine protocols.

Policies ▶ Fleet Freedom® can assist your company in enforcing your policies by quickly identifying vehicle exceptions like excessive speeding, idling, or geo-zone lingering
