STORAGECRAFT FTP LOGIN GEGEVENS

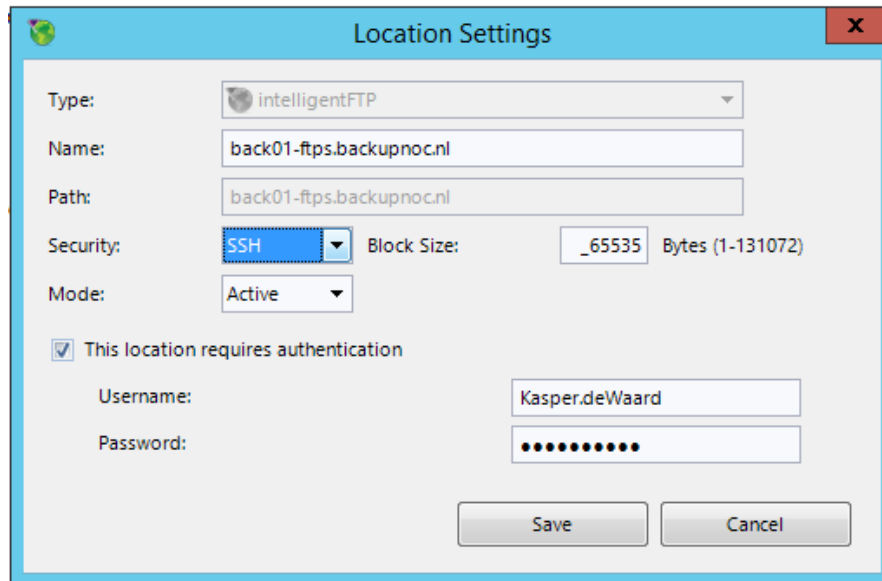

Wij hebben twee verschillende FTP Servers. U kunt in uw "Account Aangemaakt" e-mail zien welke server u voor welk account moet gebruiken.

SERVER 1

Webinterface URL: <https://back01-ftp.backupnoc.nl>

ImageManager path: back01-ftp.backupnoc.nl

ImageManager instellingen:

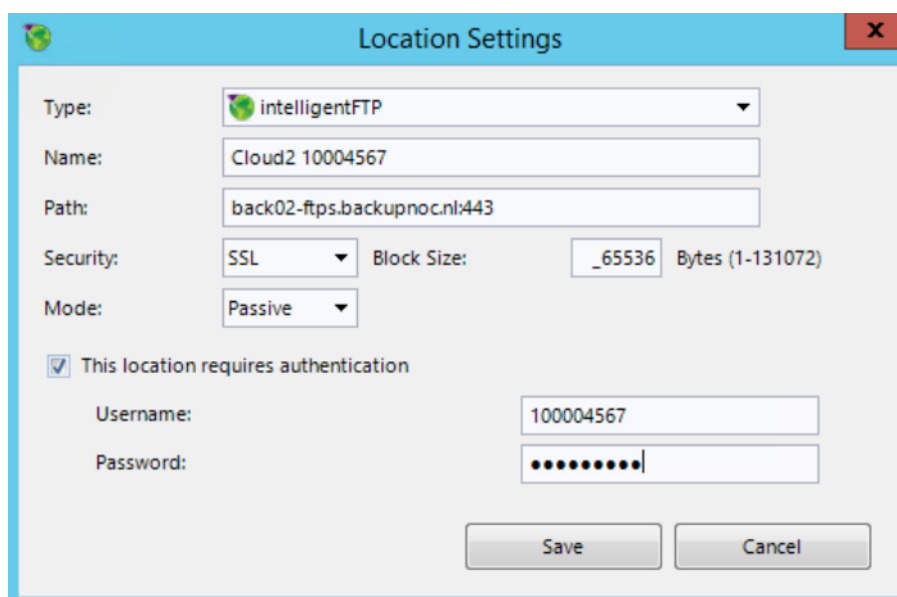

The screenshot shows the 'Location Settings' dialog box for Server 1. The 'Type' is set to 'intelligentFTP'. The 'Name' and 'Path' fields both contain 'back01-ftp.backupnoc.nl'. The 'Security' is set to 'SSH' and the 'Block Size' is '_65535 Bytes (1-131072)'. The 'Mode' is set to 'Active'. The checkbox 'This location requires authentication' is checked. The 'Username' is 'Kasper.deWaard' and the 'Password' is masked with dots. 'Save' and 'Cancel' buttons are at the bottom.

SERVER 2:

Webinterface URL: niet beschikbaar;

ImageManager path: back02-ftp.backupnoc.nl:443

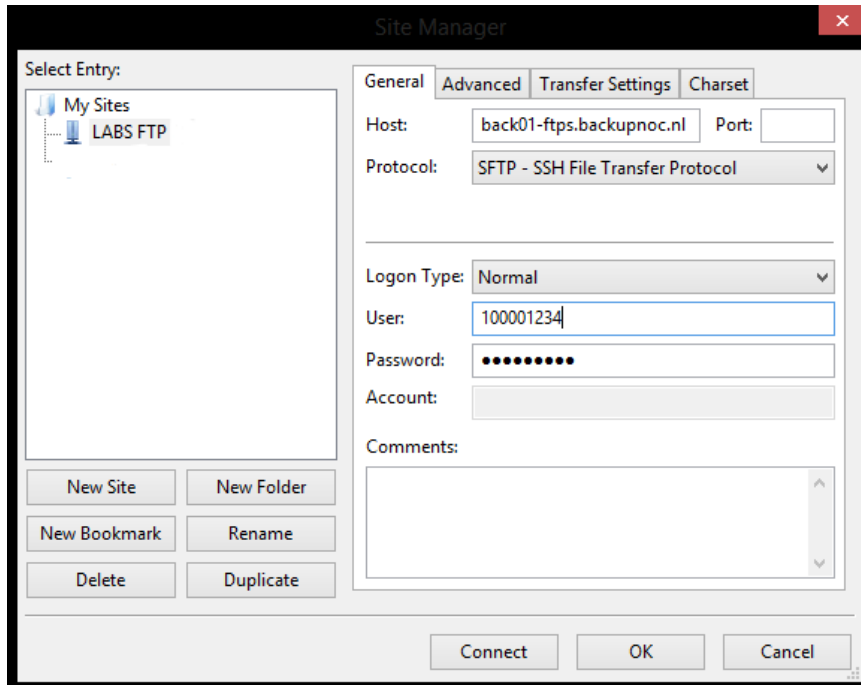

ImageManager instellingen:

The screenshot shows the 'Location Settings' dialog box for Server 2. The 'Type' is set to 'intelligentFTP'. The 'Name' field contains 'Cloud2 10004567' and the 'Path' field contains 'back02-ftp.backupnoc.nl:443'. The 'Security' is set to 'SSL' and the 'Block Size' is '_65536 Bytes (1-131072)'. The 'Mode' is set to 'Passive'. The checkbox 'This location requires authentication' is checked. The 'Username' is '10004567' and the 'Password' is masked with dots. 'Save' and 'Cancel' buttons are at the bottom.

Ons systeem is ook te benaderen met een FTP Client. Wij adviseren FileZilla FTP Client te gebruiken. De instellingen voor Filezilla zijn als volgt.

SERVER 1:

SERVER 2:
