In the top right hand corner, you will see three vertical dots

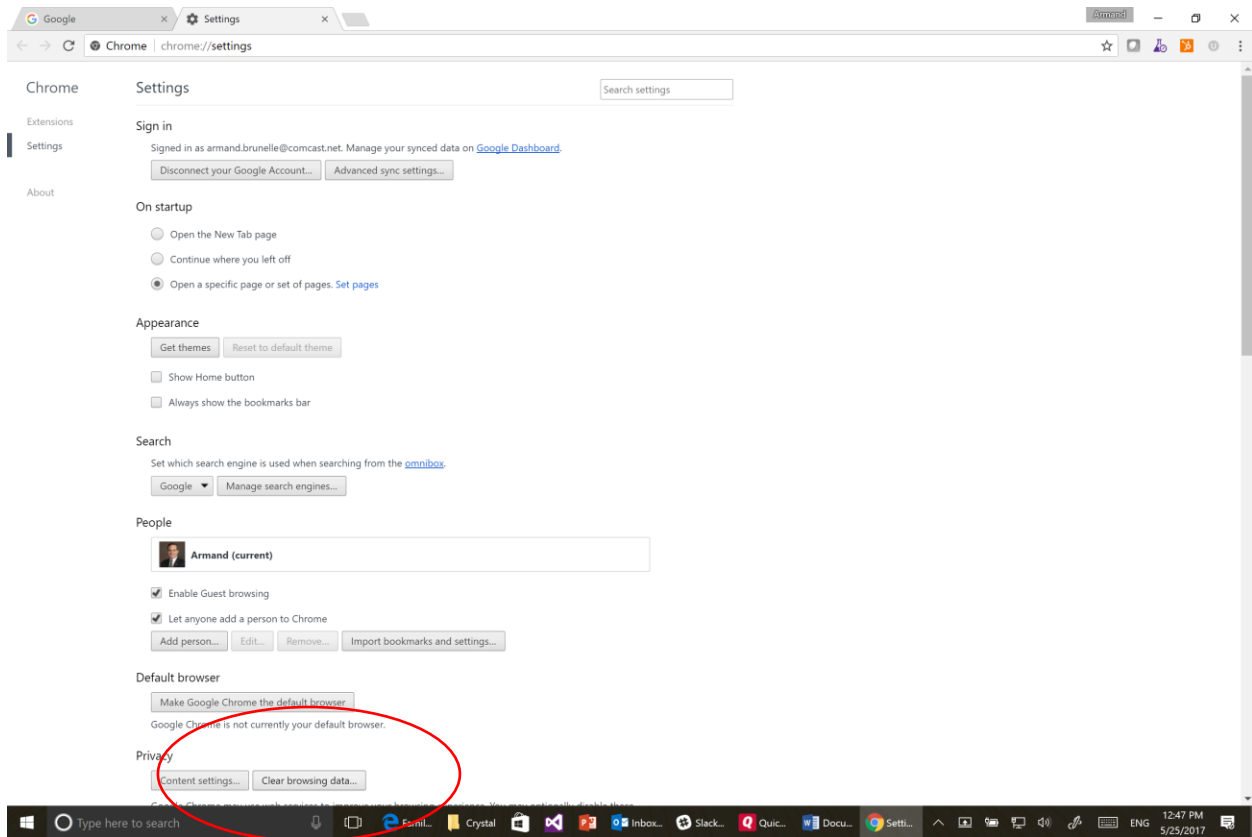

Click on the button and the menu will appear

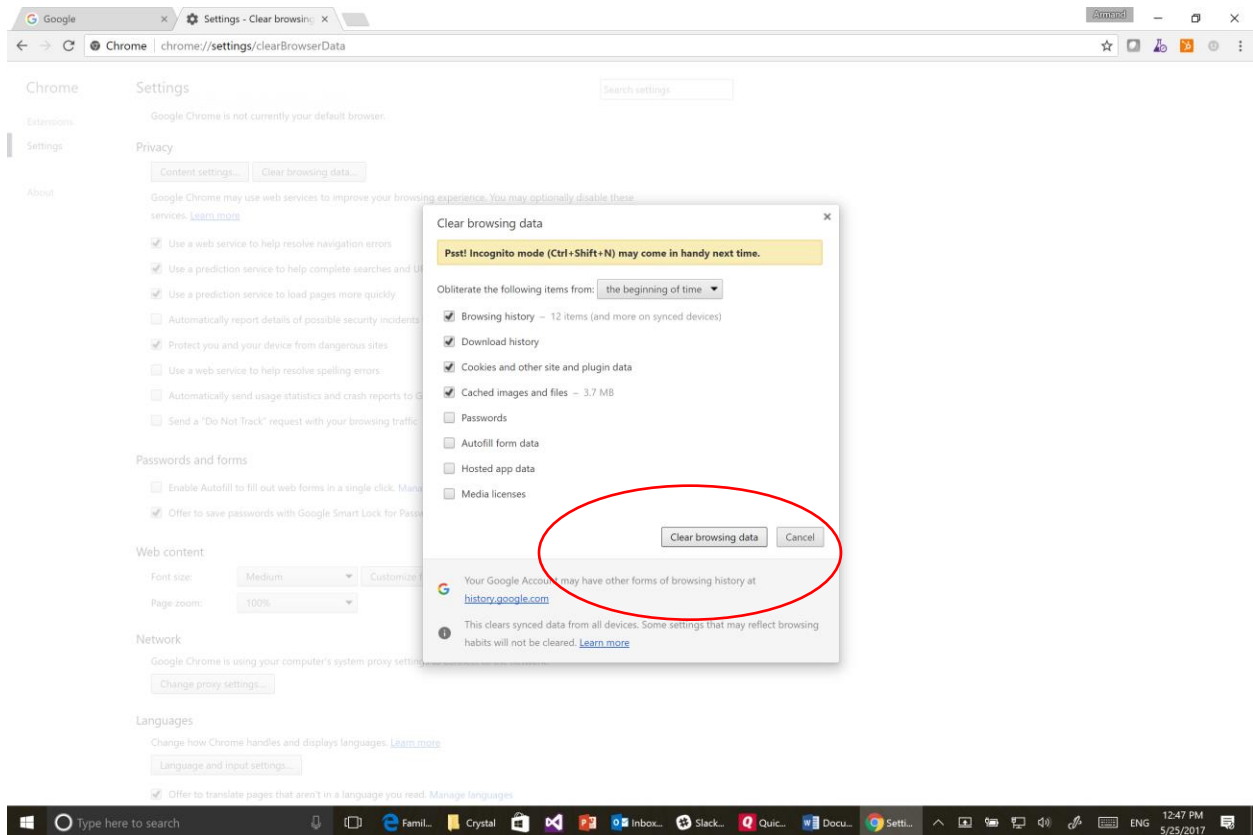

Select Settings down towards the bottom

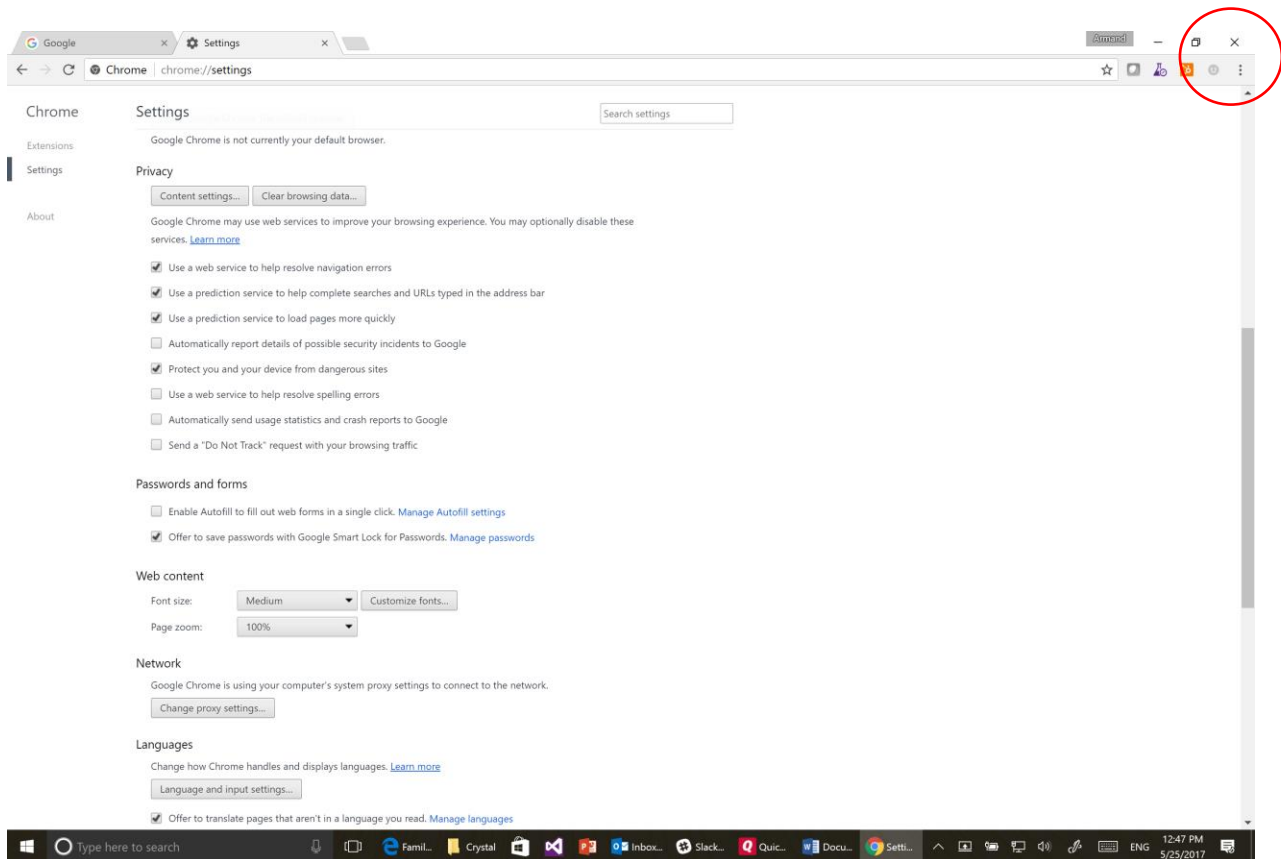

The settings screen will show and at the bottom you will select show advanced settings

The first advanced setting that shows is Privacy. Click on the clear browsing data button

A pop up will be displayed with 4 check marks on the first 4 items. Simply leave them alone and press the clear browsing data button.

When the clear function completes it will return you to the settings form. Close all the way out of Chrome by pressing the X in the right hand corner.

Then you can restart Chrome and browse to the Gabriel app which is at: <https://app.gabrielsoft.com>
