

Accessing MSDN-AA (aka Azure Dev Tools for Teaching)

1. Go to <http://engineering.arizona.edu/IT/IT-support>
2. Scroll down just a little bit to **Software Information**, click on **MSDN-AA Licensing**.

3. Click the **blue Sign In button**, which should take you to a UA sign-in page.

Note: There are **three** places for signing in on this page.  Use the **blue Sign In button**.

4. Once you've signed in and accepted the terms, you should see a big list of resources of the left, and a shorter list just to the right of that, including Quick Start, Software, and Learning. Click **Software**, and you can **download** programs and retrieve the **software keys**.
