

Zoom/Panopto Integration

The purpose of this guide is to show how to find your Zoom recording in Panopto once it has finished processing.

After you've finished a cloud recording, it'll automatically start processing. If you wish to check on the **status**, go to arizona.zoom.edu/recording, and click the **Recordings** tab.

Even with a super short recording, it can take some time (in our tests, it took somewhere between 10-20 minutes for our 15 seconds video to process).

Once that's finished processing, though, it should appear right away in your Panopto Folder, under a folder called **Meeting Recordings**.
