

## HOW TO DETERMINE THE DATABASE AND SYSTEM VERSION FOR QNE DELPHI

### Problem Scenario:

Some instance that before updating or upgrading the system and database version, you need to determine first what's your current version.

### Step by Step:

In the main window, select the 'Help' button.

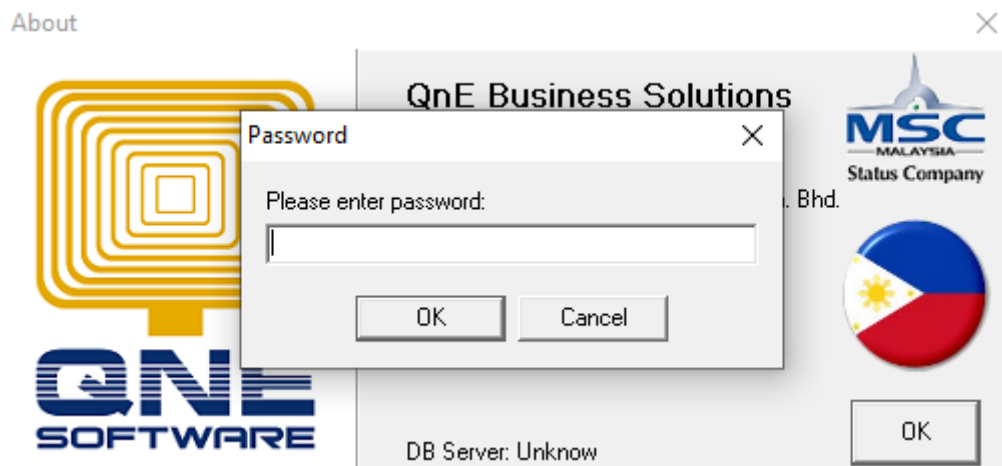

Upon clicking Help, select the 'About' button.

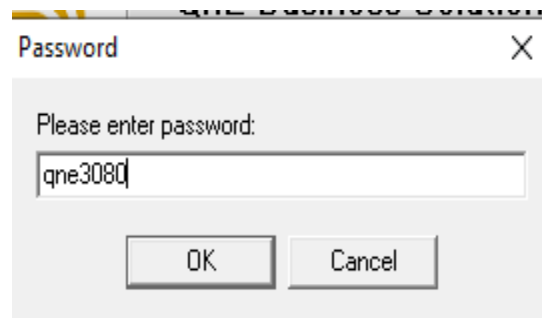

Once the 'About' Button is clicked, this small window will pop-up.

Press 'Ctrl + F9', then a small pop-up box will appear, Enter the Password "qne3080".

Press 'OK'.

Upon clicking 'OK', Database and System Version will appear.
