My Work

Translation
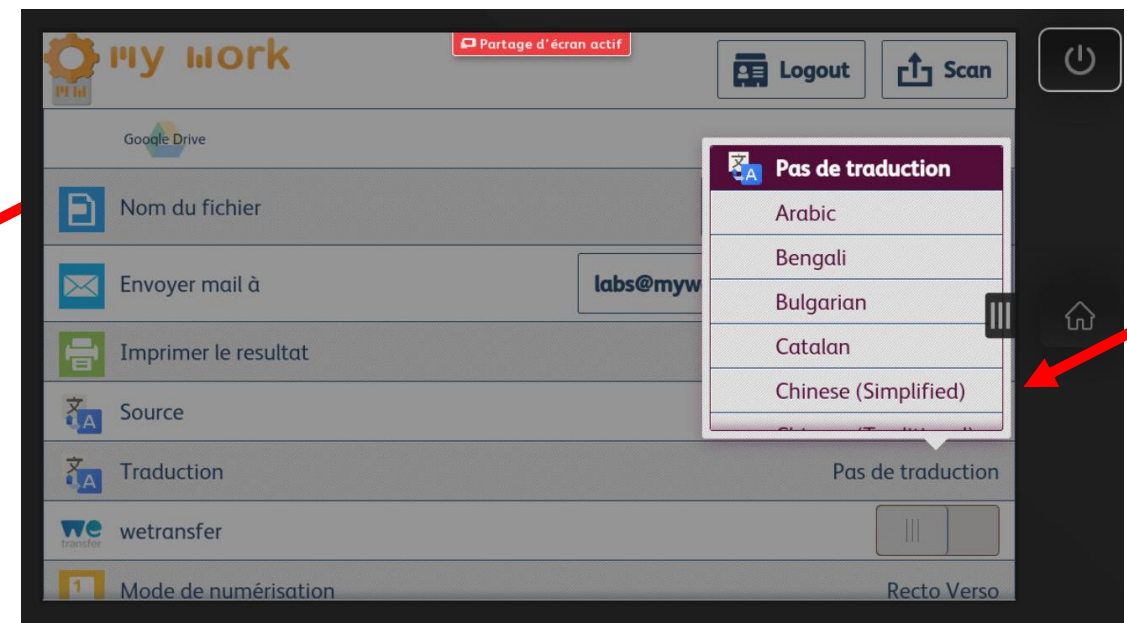

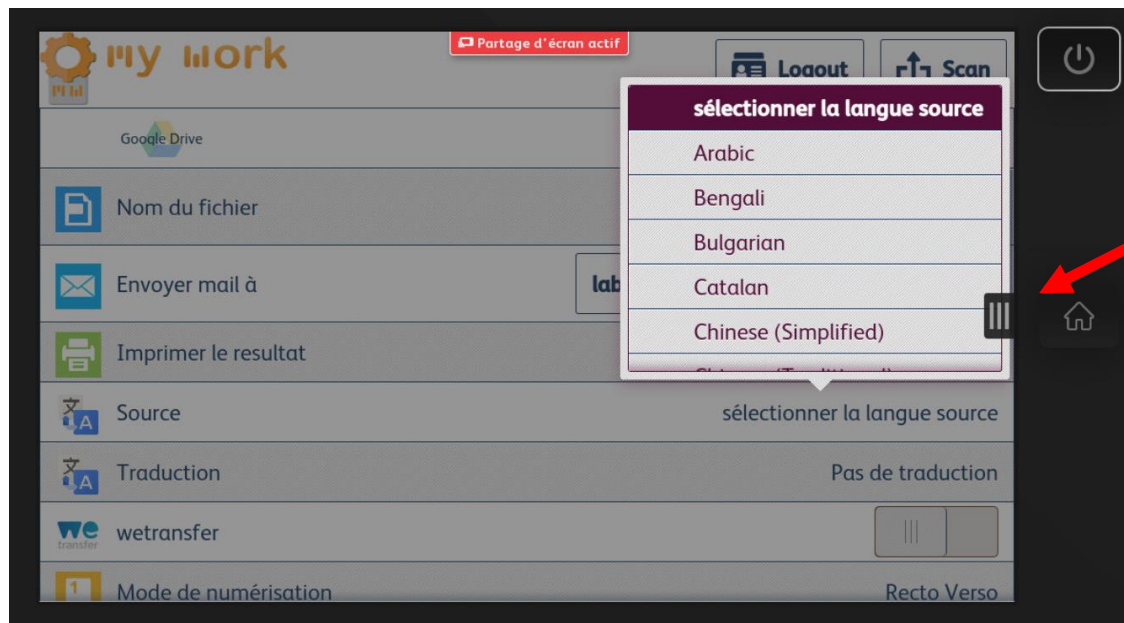

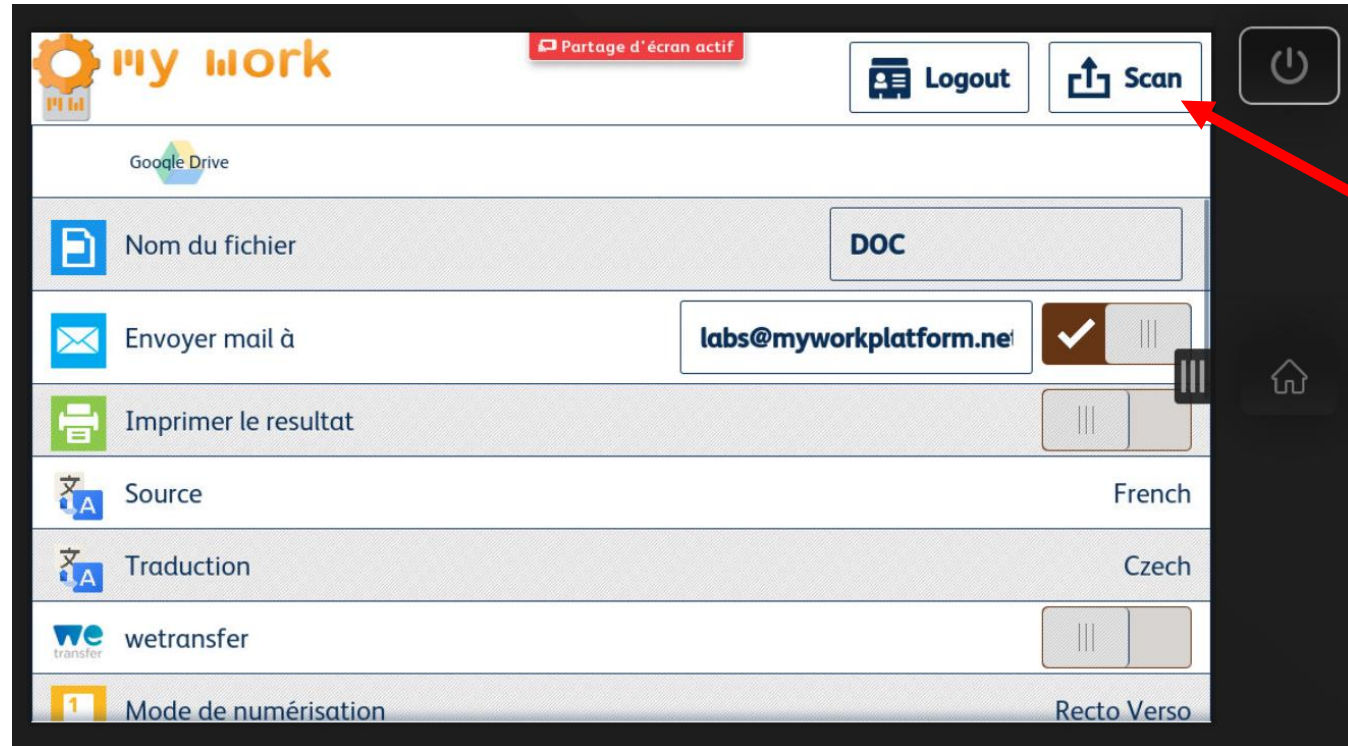

TUTORIAL

1 st step

1) Launch the application, name your file, enter an e-mail adress.
2) Choose if you want or not to print the translated file. If you want to print it, pay attention of the size of the file (more the file is big, more time of the translation will be important, the printer can't go in « sleeping mode » otherwize the file is lost).

2 nd step

1) Choose the source language of your document.
2) Choose the translation language of your document.

3 rd step

1) If everything looks you good, launch the scan.
