

Title: Data-Sets by Government of India

URL:

http://data.gov.in/catalogs?filter=catalog_type%3Acatalog_type_raw_data&sort=updated%20desc

Description: The above URL contains various data-sets provided by the Government of India. You may use these data-sets to extract some conclusion, based on them and prepare a use case.

These data-set are based on some analysis, survey or scheme run by the government.

The screenshot shows the data.gov.in website interface. The top navigation bar includes 'DATASETS', 'APPS', 'METRICS', 'COMMUNITIES', 'WW DATA SITES', and 'SEARCH'. The main content area is titled 'Datasets' and features a search bar with the text 'Search terms' and a search icon. Below the search bar, there is a checkbox for 'Retain current filters'. The 'Browse Datasets' section shows a table with the following data:

Sr. No.	Name/Title	Popularity	Rating	Format
1	Incidence of Poverty across Social Groups This table describes incidence of poverty across social groups, the incidence of poverty among the SCs and STs. Even though the incidence of poverty among these groups has declined over the years, the headcount ratio (HCR) for SCs and STs remains higher than the national average. The table contains...	3 Views	★ ★ ★ ★ ★ (0 votes)	EXCEL
2	Worker Population Ratio (per 1000) for persons of age 15-59 years... Worker Population Ratio is defined as the number of person/person-days employed per 1000 person/person-days. The workforce measured in terms of current weekly status (CWS) gives number of persons employed on an average in a week of 7 days during the survey period. The estimate of workforce...	13 Views	★ ★ ★ ★ ★ (0 votes)	CSV
3	Average MPCE-MMRP and rural-urban differentials across State/UTs The table compares the average modified mixed reference period monthly per capita consumption expenditure for rural and urban along with the differential across the states.	8 Views	★ ★ ★ ★ ★ (0 votes)	CSV

Every Data-Set contains the description of what the data-set is all about.

Few of the data-sets are listed below:

Worker Population Ratio (per 1000) for persons of age 15-59 years according to current weekly status approach for each State/UT

BASIC INFO	Title:	Worker Population Ratio (per 1000) for persons of age 15-59 years according to current weekly status approach for each State/UT
	Description:	Worker Population Ratio is defined as the number of person/person-days employed per 1000 person/person-days. The workforce measured in terms of current weekly status (CWS) gives number of persons employed on an average in a week of 7 days during the survey period. The estimate of workforce according to CWS provides the number of persons worked for at least 1 hour on any day during the 7 days preceding the date of survey.
