

- At the Lync for Mac 2011 sign in page, enter your Office 365 user ID in both the **Email Address** box and the **User ID** box, and enter your password. Then choose **Advanced** at the bottom of the page.

- Under **Authentication**, clear the **Use Kerberos** box.

- Under **Connection Settings**, choose **Manual configuration**, and then enter **sip.yourdomain.com:443** in both boxes. Choose **OK**.
- Back at the Sign in page, choose **Sign In**.
