# Push FBP Configuration

This feature is helpful in moving/pushing the FBP Configuration & FBP Declaration of employees from current Financial Year to next Financial Year.

Go to **Transactions** menu >> Under **Flexible Benefits** >> Click on **Push FBP Configuration**

➢ To push both FBP Declaration and Configurations, select **Push Declaration,** and click on Process button.

➢ To move only configuration, without selecting an option of **Push Declaration,** users can directly click on Process button, then employees/admin need to re declare the declarations for new financial year
