

Understanding CoreView Tenant Configuration - CoreLearning

*The **CoreLearning** category under the **Settings** tab of **My Organization** is designed to allow a **Tenant Administrator** to configure their organization's instance of **CoreLearning**. This activity is only performed once.*

- **Organization Name** – Your company's name, as configured for your CoreView tenant.
- **Number of Users** – The total number of CoreLearning licenses purchased by your company.
- **Full Subscription** – Whether your company is entitled to a full subscription. The default value is **Yes**.
- **Provisioning Status** – Displays the result of the last provisioning attempt. If this displays "CV.Failure," please open a Support Case with Customer Care.
- **Confirm and start provisioning** – This option is only active for companies who have not yet successfully provisioned CoreLearning. Slide this to the right and click on **Save** to start the provisioning process, which can take anywhere from five (5) to ten (10) minutes. Once a successful provisioning has occurred, all fields on this page will become read only.
- **Activation Key** – This is in the format of a GUID and is used to identify your specific learning environment in the format of <https://corelearning.coreview.com/Portal?ID=XY2Z-HNZ8-FAKE-ABK7-ZZL0>

Once your organization is configured for CoreLearning, then a TenantAdmin would navigate to this menu option under Settings and Confirm and Start Provisioning as described above

The screenshot shows the 'Settings' tab for 'CORELEARNING'. The navigation bar includes 'Organization info', 'Settings', 'Portal Information', 'Admins Read Only', and 'On Premises'. The settings form contains the following fields:

| Field | Value |
|--------------------------------|-------------------------------------|
| Organization Name | Acme Widgets, Inc. |
| Number of users | 5000 |
| Full subscription | <input checked="" type="checkbox"/> |
| Days | 100 |
| Provisioning Status | Provisioning completed |
| Confirm and Start provisioning | <input type="checkbox"/> |
| ActivationKey | XY2Z-HNZ8-FAKE-ABK7-ZZL0 |

A 'Save' button is located at the bottom right of the form.
