

SUPPLIER CHECK MANAGER

This helpful tool forms part of our Supply Chain Management module allowing you to record supplier checks, receive direct responses on issues and report on results.

FEATURES INCLUDE:

- ✓ Create fully customisable supplier check templates with a diverse range of field types within our easy-to-use form builder.
- ✓ Set up customisable pre-set fields for consistently used options in your template to enable quicker form building.
- ✓ Set up scoring criteria for automatic score generation and configure email triggers based on which options are selected within the check, eliminating the need for extra tasks and saving time.
- ✓ Record new checks on the web or on the go through our user friendly app, share them with suppliers and request more information or corrective action. corrective actions to be completed in the future.
- ✓ Ability to carry out your supplier checks offline on the app, save as drafts and submit to the platform whenever your device is online.
- ✓ View the status of your scheduled supplier checks on our app filtered by due date to keep better track of pending tasks.
- ✓ View completed supplier checks and export them to PDF.
- ✓ Full transparency of edits made to the supplier check allows for complete accountability.
- ✓ Create analysis and snapshot reports on supplier checks to analyse supplier responses with charts and tables that can be exported to PDF.
- ✓ Create widgets from the charts in your reports which can be integrated in our customisable dashboard and then shared with other company users.

Our Supply Chain Management module with each of its tools interconnects and integrates seamlessly with our Quality Management and Trading and Planning modules and are available on the Foods Connected single pane of glass platform.
