

Requirements of immunizations/CPR (Updated 8-31-2020)

TB (tuberculosis) Screening ***YEARLY REQUIREMENT**

There must be documentation of one of the following:

- Proof of 2 skin tests (2 separate skin tests placed no sooner than 7 days apart and no longer than 9 weeks apart. This will be a total of 4 steps; two tests and two reads).
- One (1) Negative QuantiFERON Gold Blood Test (lab report required).
- T-SPOT TB test
- If the results are positive, a clear Chest X-Ray (with lab report) is required. If you have documentation of INH Prophylaxis treatment, submit this as well.
- Students that are renewing their TB requirements **PRIOR** to expiration date of original immunization only need 1 skin test (if they previously received two skin tests) or a QuantiFERON Gold blood test (if they previously received a blood test) to be compliant.
- **If annual TB expired, you MUST complete the 2 skin tests or QuantiFERON Gold blood test again for compliance.**

Tetanus, Diphtheria & Pertussis (Tdap) ***GOOD FOR 10 YEARS**

There must be documentation of the following:

- Tdap immunization within the past 10 years.
- Must be a **Tdap NOT a TD or Dtap** immunization.

Varicella (Chicken Pox) ***LIFETIME COVERAGE**

There must be documentation of one of the following:

- **2** vaccinations given at least 4 weeks apart.
- Positive antibody titer (lab report required)
- If the titer does not show immunity, then 2 varicella immunizations must be repeated

Measles (Rubeola), Mumps & Rubella (MMR) ***LIFETIME COVERAGE**

There must be documentation of one of the following:

- **2** vaccinations given at least 4 weeks apart.
- Positive antibody titers to Measles, Mumps, and Rubella (proof of immunity through a blood test for all 3 components).
- If any component of the MMR is negative, the MMR (2 vaccinations) must be repeated.

Hepatitis B ***LIFETIME COVERAGE**

There must be documentation of the following: (Immunizations OR antibody titer) (post vac titer required for 4th semester)

- Documentation of immunizations required (all 3 immunizations--1st immunization, 30 days later 2nd immunization, 3rd immunization must be a minimum of 5 months after the 2nd dose)
- 2 dose Heplisav-B is also accepted
- Documentation of a positive (reactive) antibody titer (lab report required).
- If non-reactive titer is found, a new series of 3 immunizations must be completed; (1st immunization, 30 days later 2nd immunization, 3rd immunization must be a minimum of 5 months after the 2nd dose).

CPR Certification ***MUST BE CURRENT**

- Certification MUST be through American Heart Association Basic Life Support for the Healthcare provider.
- American Heart Association (AHA) go to <https://www.heart.org> for class information. **No instructor cards will be accepted.** CPR certifications usually need to be renewed every 2 years.
- **There are CPR classes available on campus that you can complete for your certification.** Class days and times will vary from semester to semester.

Flu Vaccination

Flu shot must be for the current flu season August through May season.

- Serum given must be for the current season- **encouraged to get flu shot no earlier than August of the year.**
- **No receipts** will be accepted. There must be documentation with signature of the individual who administered the immunization.

To be accepted all documents must show student name, date immunization was administered, and facility name or be on official letterhead/document.

If student takes a Leave of Absence and the drug screen or background check are older than 1 year old when returning a new one will be required.

Copies of required immunization need to be uploaded to Simpliverified (immuware)

For questions please contact Simpliverified directly at:

855-837-1328 or email them at support@simpliverified.com

The website to upload your documents is: ameritech.immutrackr.com
