

### Znode v9.6.3 Breaking Changes

Project Name	File/ Method/ Property/ Table/ SP Name	Breaking Changes
Znode.Engine.WebStore	<b>File Name:</b> SinglePage.cshtml	The class name is changed from signle-page-payment to single-page-payment
Znode.Libraries.Data	<b>File Name:</b> ZnodeAccount.cs <b>Property Name:</b> SalesRepld	A new column SaleReId is added in table <b>ZnodeAccount</b> to store the salesrepld against Account.
Znode.Engine.Service	<b>File Name:</b> UserService.cs <b>Method Name:</b> UpdateUserData	There is no change in method signature. Through this method, UnassociateSalesRepWithAccount() method will be called to unassociate Sales Rep users with Account. Note that the method UnassociateSalesRepWithAccount is newly added in the class file.
