

## Performance Series Testing

---

### Bridgeway's Vision

Bridgeway's vision is to positively impact the future through transformative education. Our strong belief is that this begins with the individual and with the commitment to top quality personalized academics and flexible homeschool programs. Knowing how a student learns best as well as specific academic strengths and needs is essential to tailoring a program that both builds confidence and paves the way for student growth.

---

### Peace of Mind and Insight That Drives Personalized Learning

The **first step** in a truly tailored education is our Learning and Personality assessment, which provides insight into how a student learns, what types of activities motivate them, and communication essentials that lead to a better learning experience.

The **second step** is understanding each student's academic strengths and needs. This is the power of the Performance Series assessment.

Placement testing is fully online assessment and allows students to move through one subject at a time on their schedule. It begins at a level that ensures student success, which helps build confidence before moving on to concepts designed to both challenge and showcase each student's skills and prior knowledge.

Taking the time for this testing during the getting started process means a stronger school year tailored to each student's personalized needs.

---

### Benefits of Performance Testing

#### **Sets students up for success**

Struggling students get the help they need to close academic gaps and move forward with the foundation they need to succeed.

#### **Paves the way for accelerated growth**

Advanced students begin where it makes sense for them rather than simply at grade level.

#### **Gives parent valuable insight**

Parents gain insight into where their students are in each subject area.

#### **Gives student recognition**

End of year testing gives parents the opportunity to celebrate student achievement.

#### **Provides clear documentation and support**

Progress charts provide parents with the support they need should a district question their homeschooling efforts.

---

### Key to Accreditation

Assessments are also key to our accreditation and our use of assessments to truly personalize and customize learning to students is seen as a model of excellence by the organizations that grant our accreditation.
