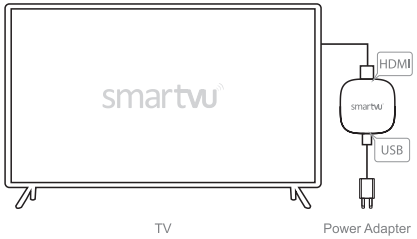
Connect to TV

Display:
Connect one end of the HDMI Cable provided into the HDMI Port on the back panel of your TV Dongle, while connecting the other end of the HDMI Cable to an HDMI Port on the TV.

Power:
Connect one end of the Micro USB Cable provided to the TV Dongle, while connecting the other end to the Power Adapter provided.

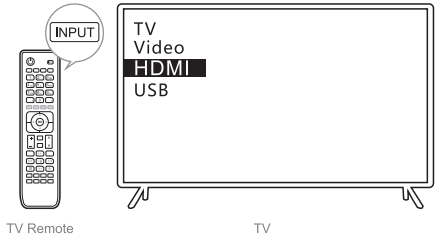
Note, use of the USB Port on your TV is NOT recommended, as they often provide insufficient power for the TV Dongle.



TV Input

To use your TV Dongle, ensure your TV has the HDMI input that the TV Dongle is connected to selected (HDMI2, etc...).

Press the **INPUT** or **SOURCE** button on your TV Remote to access the TV's input selection menu.

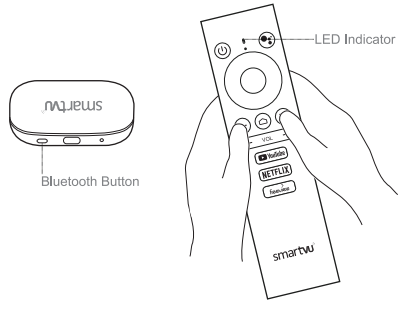


Bluetooth Remote Connection

To pair the Bluetooth Remote with your TV Dongle, both the Bluetooth Remote and TV Dongle will need to enter 'pairing mode'.

TV Dongle:
While the TV Dongle is powered on, press the **BLUETOOTH** button for the TV Dongle to enter 'pairing mode'.

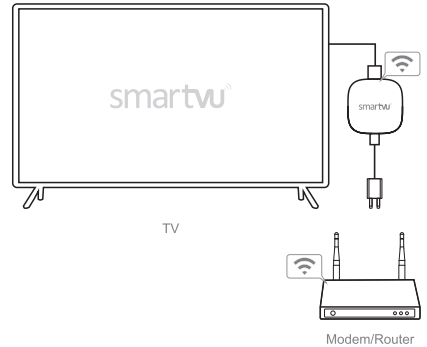
Bluetooth Remote:
Place the Bluetooth Remote within 30cm of the TV Dongle. Then press and hold both the **RETURN** and **APPS** buttons simultaneously, until the LED Indicator flashes quickly. This indicates the Bluetooth Remote has entered 'pairing mode'.



Connect to a Network

This TV Dongle supports Wireless Network connection, use of a Wired Network connection requires a suitable Ethernet Adapter (not included).

Refer to **Home > Settings > Network Setting** to enable the Wireless Network and setup a connection to your local WiFi.

Note, for better WiFi connection keep the TV Dongle vertical.


As the distance between your Modem/Router and TV Dongle will affect your WiFi performance, ensure both are positioned to maximise coverage and connection.
