

How to: Connect to the new wireless network on your Mac laptop

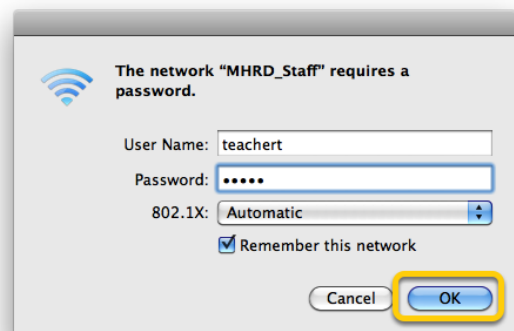

1. Select MHRD_Staff

From the Airport menu, select "MHRD_Staff".

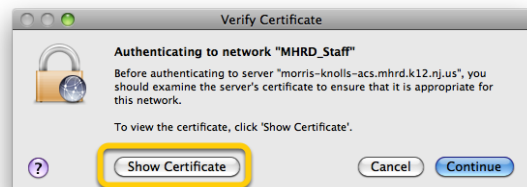

2. Enter your Windows login credentials

Enter the user name and password that you use when you log onto a Windows PC (e.g: when you use the full versions of Mig Sirs).

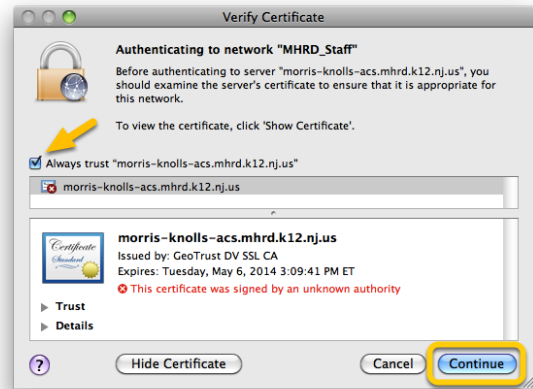

3. Verify the certificate

When the "Verify Certificate" window appears, click on the "Show Certificate" button.

4. Trust the certificate

Make sure the "Always trust..." box is checked (as shown), then click "Continue".

Save the settings

Enter your local Macintosh user name and password (NOT your network password), then click "OK".
