

Mosspaper Contracts Highlights

Contract Management

Once the contract is in place, the system's built in workflow will send out notifications about the expiring contract, improve renewal sale of an existing contract, and store all contracts.

Focused on Increasing and Maintaining Your Renewal Business

Send Reminders

System generates emails to customers with Contract Details. A customer can simply purchase a renewal contract.

Generate a Contract

From a contract, you have the ability to generate a quote ready to be emailed and signed by a customer. All signatures are done online and managed in a centralized location.

Data Analytics

Accurate real-time data for reporting and dashboards to help you forecast revenue so you can manage your cash flow

Streamlined Workflow

Alerts, triggers, and notifications increase communications between your new or existing customers and your business.

Store Contracts

System stores all signed contracts and agreements with transactional information as well as historical data. System keeps the integrity of the data for your future reference.

Centralized Communication

Manage all feedback and comment directly on the contract so expectations for the statement of work is clear and concise.
