UMBRELLA BASE RUSSET FINISH**

**IMPORTANT!! PLEASE READ ENTIRE INSTRUCTION SHEET BEFORE ASSEMBLY!!
TO EXPEDITE ANY FUTURE WARRANTY CLAIMS, PLEASE KEEP INSTRUCTION SHEET,
WARRANTY CARD AND RECEIPT**

Step 1: Identify all parts packed in the carton against the parts list. Remove all protective materials. Set the parts on a flat, non-abrasive surface. If you are missing any parts or are unsure as to how to proceed with assembly please call your local casual classics dealer. **Do not attempt to assemble if any parts are missing or damaged.**

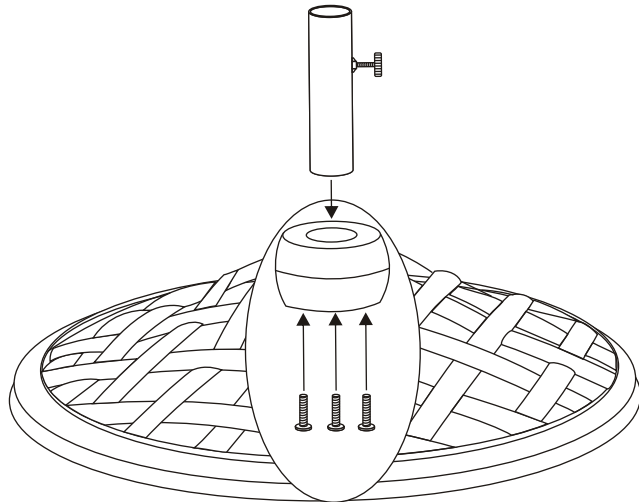

Step 2: Gently insert the extension pole into the base. Using three bolts, guide them through the bottom of the umbrella base and into the hole that are pre-drilled in the extension pole. Check the bolts to ensure they are aligned properly. Using the hex bolt driver provided, tighten each bolt a few revolution at a time until they are fully tightened. **Do not over tighten.** Over tightening could strip the bolts.

Step 3: Your umbrella base is now ready for use. Carefully guide the umbrella pole through the hole in the center of the table, and if applicable, through the hole in the table connector ring, and then into the base. Using the screw already in place in the extension pole, turn until your umbrella pole is secure in the extension pole.

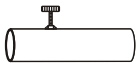

Caution: Although you have an umbrella base, we highly recommend you remove your umbrella from its base and the table when not in use. Even when closed, strong winds could open the umbrella and damage the umbrella or the table. If your table came with a protective ring for the umbrella hole, make sure it is in place before using your umbrella. **Note: Not all tables require use of umbrella hole protective ring.**

Caution: This is not a free standing umbrella base, Must be used in conjunction with a table.

IMPORTANT NOTE: Damage to welds or frames resulting from over tightened bolts or improper assembly is not covered under our warranty. Please read all instructions carefully before assembly.
