PUT THE STORE ON YOUR DESKTOP

If you are using Microsoft Windows, it's simple to add a desktop link that allows quick access to our online store.

1

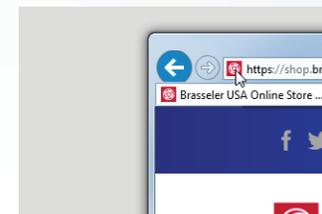

On your Windows computer, open Microsoft Internet Explorer, and go to shop.brasselerusa.com

NOTE: When making desktop shortcuts, IE works much better than other web browsers because it creates the correct icon, so please use Internet Explorer if possible.

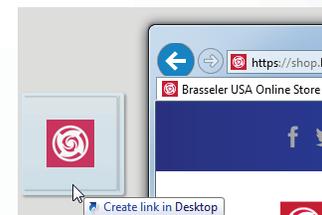

2

After the page finishes loading, place the mouse pointer on top of the small Brasseler logo in the address bar, next to the "https://"

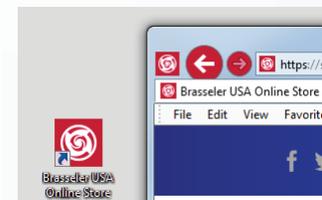

3

With your mouse pointer on top of the logo, click the left mouse button and drag the logo to the desktop.

4

When you release the mouse button, a new icon will appear on the desktop.

5

As a final step, click the new icon on the desktop and drag it to a location where it will be convenient for future use, such as along the left-hand side of the screen.

Done! Now you can double-click the Brasseler logo to go shopping online.
