

4. In the list of available devices, select "MobilePal Bluetooth Keyboard A5."

5. A passcode will appear on your iPad. Enter the displayed passcode with your keyboard and then press the "Enter" key.

6. Your keyboard should now be successfully paired with iPad Air 2. Enjoy your bluetooth keyboard!

### Troubleshooting

If the keyboard is not working properly with your iPad Air 2 or tablet, please check the following:

- 1) The Bluetooth function on the iPad is enabled, and the iPad is paired with the keyboard.
- 2) The Bluetooth keyboard is within 33 feet of Pad.
- 3) The passkey was entered correctly.

- 4) Make sure the keyboard is charged. If the battery of the keyboard is low, recharge it.
- 5) If all the above failed, try to restart the iPad.
- 6) If you pressed the "Bluetooth" button when the keyboard has been connected with the iPad, this will disrupt the established connection, and the keyboard will appear as not connected. To resolve this issue, just restart the keyboard by turning it off and then back on.

### LED Indicators

- Blue LED blinking: Pairing
- Red LED on: Charging
- Green LED on: Battery is fully charged
- Green LED blinking: Low battery

### Operating Instructions

#### Step 1: Charging the Battery

1. Before first use, please charge the keyboard for at least 3 hours (or to full charge). After the initial charge, the keyboard should generally take about 2 hours to recharge when the battery power is low.
2. The Green LED light will start blinking when the keyboard is low on power. In contrast, the Green LED light remains solid when the keyboard is fully charged.

3. To recharge the keyboard, please connect the keyboard to a compatible 5V/0.5A USB charger using a micro-USB charging cable (included). The keyboard is fully functional while it is being recharging.

#### Step 2: Pairing Keyboard with your iPad Air 2 or Other Bluetooth-Enabled Device

Before you can use the keyboard with your iPad Air 2, you must first pair the devices together via wireless Bluetooth. You only need to perform the pairing process once.

1. Turn on the keyboard and press the "Bluetooth" button at the top of the keyboard. The blue LED light should begin blinking rapidly.
2. Turn on your iPad Air 2 and locate the Settings App.

3. Enable the Bluetooth feature if you have not already done so. Your iPad Air 2 should now automatically search for all nearby Bluetooth devices.
