

December 15, 2015

Dear [Customer Name]:

We have a new version, 5.1, of EnergyGauge Summit for you to download. With this version we are making the transition to our new license manager. Thank you for working with us during the transition using version 5.0t.

Your new product key is **XXXXXX-XXXXXX-XXXXXX-XXXXXX-XXXXXX** and it has **XXX** days remaining on it.

NOTE: The following steps require an internet connection. Please open these links in Internet Explorer, Google Chrome, or Mozilla Firefox. The activation cannot be performed in Microsoft Edge, the new web browser in Windows 10.

Here are the steps you will need to follow to use version 5.1:

1. Go to <https://fsec.freshdesk.com/solution/articles/5000686389-latest-energygauge-summit-version> and download then install version 5.1

2. While on the machine you intend to use EnergyGauge Summit please click the link below to activate your EnergyGauge software using your new product key. Then select the Next button, then the Activate Licenses button, then select the license you would like to activate, and select the Activate Selected Licenses Now button.

<http://activation.energygauge.com/get.php?id=XXXXXX-XXXXXX-XXXXXX-XXXXXX-XXXXXX>

3. If the link above does not work, please visit the following website and copy and paste your above product key.

<http://activation.energygauge.com>

Please do not reply directly to this automatically-generated e-mail message. If you have any questions, please contact our support team at 321-323-7255 or by submitting a ticket to our support site here.

If you are planning to install to a machine that is not connected to the internet or you have a slow, dial-up connection, you may want to consider purchasing a media version of the download (\$15). Your product key and days remaining will remain the same. After you have installed EnergyGauge Summit 5.1 from the media, contact us or visit <http://activation.energygauge.com> to activate your product.

Sincerely,
EnergyGauge Support Team
