BRIDGESTONE CORPORATION - GROUP GLOBAL MARKETING  
Date: April 13<sup>th</sup> 2015

Web Version : 2015.04.13  
Touch Version : 1.4.2.0

Toolbox Release Information  
April 13, 2015

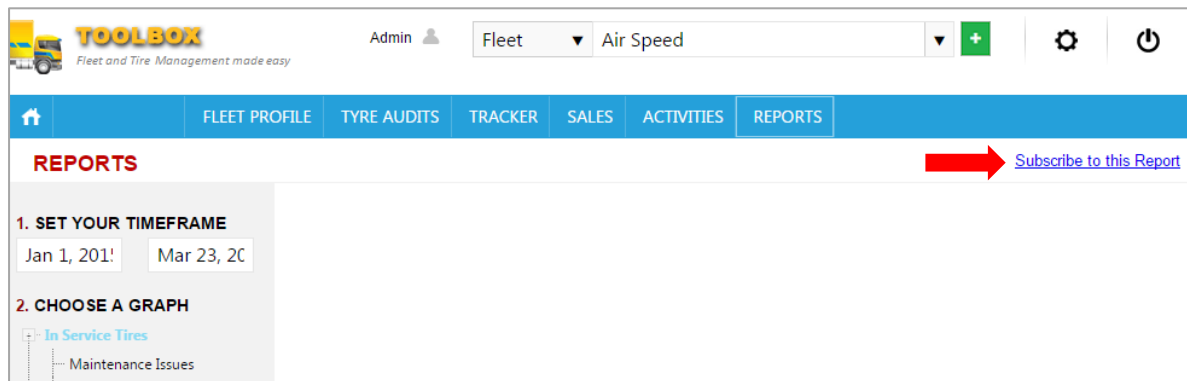

# **WEB TOOLBOX**

## **ENHANCEMENTS**

## 1. REPORT SUBSCRIPTION

You can now subscribe to reports!

Subscribing to reports will allow you to **receive pdf reports from Web Toolbox automatically to your mailbox at the frequency you choose.**

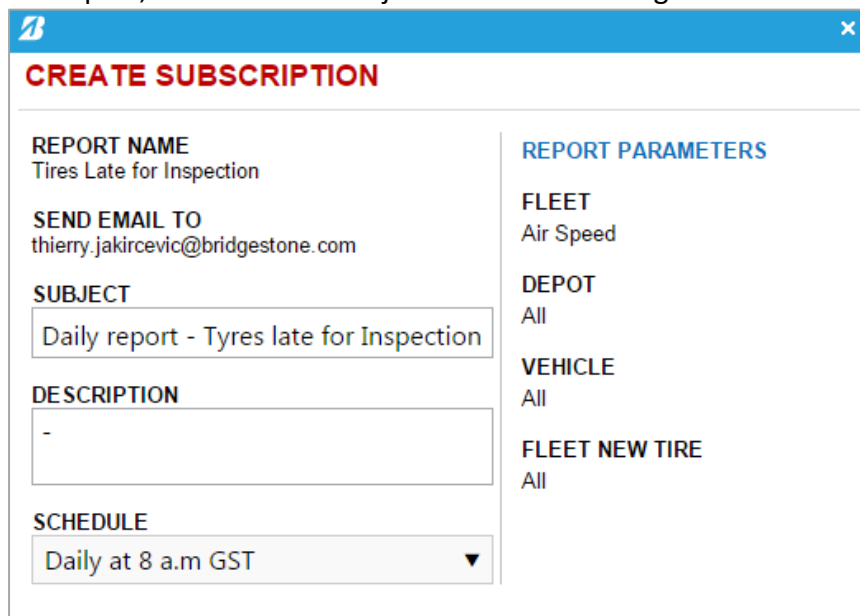

This can be useful for example for those of you using Toolbox for your Total Tyre Management contracts as you can get daily reports of tyres late for inspection or removal.

Or you may also want to get the “Activity Report” delivered to you weekly.

To subscribe:

- Go to the REPORT page
- Select the TIMEFRAME, the REPORT and any FILTER you want to apply
- Click on the “**Subscribe to this report**” button (note: you do not need to run the report)

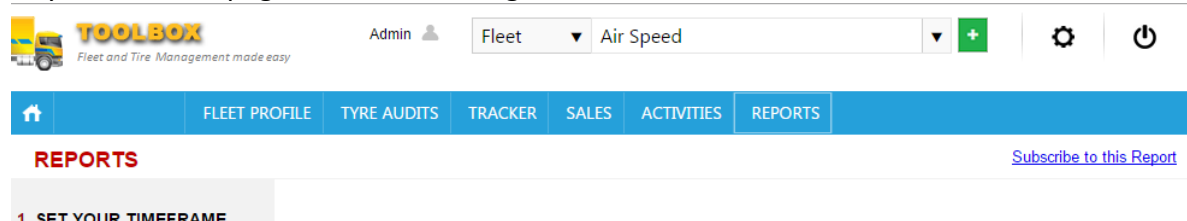

In the new page that opens: you can choose the frequency at which you want to receive the report, as well as the subject and email message.

A screenshot of the 'CREATE SUBSCRIPTION' form in the Toolbox application. The form is divided into two columns. The left column contains: 'REPORT NAME' (Tires Late for Inspection), 'SEND EMAIL TO' (thierry.jakircevic@bridgestone.com), 'SUBJECT' (Daily report - Tyres late for Inspection), 'DESCRIPTION' (a text area with a hyphen), and 'SCHEDULE' (Daily at 8 a.m GST). The right column, titled 'REPORT PARAMETERS', contains: 'FLEET' (Air Speed), 'DEPOT' (All), 'VEHICLE' (All), and 'FLEET NEW TIRE' (All).

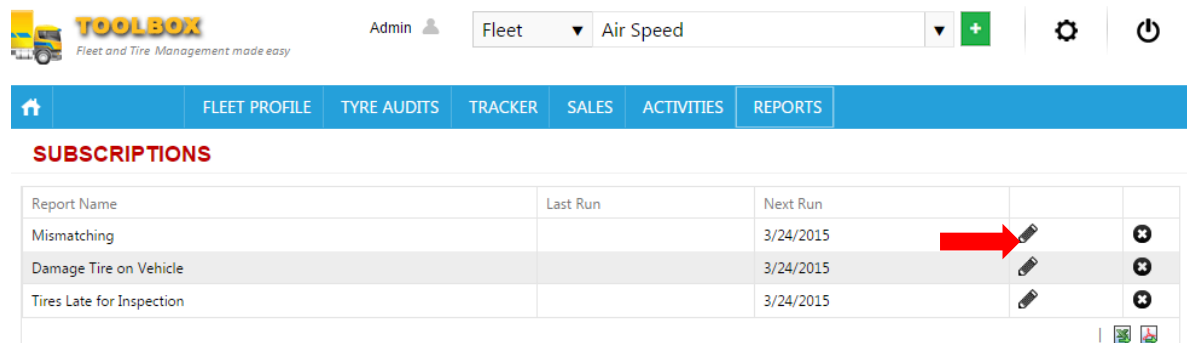

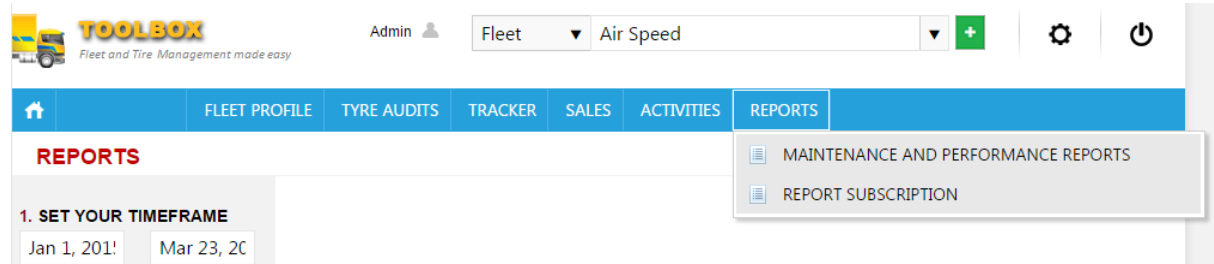

Toolbox Release Information  
April 13, 2015

Note that the filters on the right hand side are based on whatever you selected on the REPORT page.

The email address is based on your email address set in your PROFILE page. You must go to your PROFILE page in order to change it if it is incorrect.

You can then see all your subscription and delete any of them by going to the dedicated page shown below:

Report Name	Last Run	Next Run		
Mismatching		3/24/2015		
Damage Tire on Vehicle		3/24/2015		
Tires Late for Inspection		3/24/2015		

## 2. VEHICLE FITMENT HISTORY

With our new page “Vehicle Fitment History” under Tracker you can now quickly see the history of tyres that were fitted to a specific vehicle.

This page lists all fitments, removals and rotations associated to a specific vehicle plate number.

The arrows help you identify the type of movement:

-  : Fitment
-  : Removal
-  : Rotation

 <span style="float: right;">Admin  Fleet <span style="margin-left: 20px;">ABS Soda</span>    </span>								
<span style="float: left;">Home</span> <span style="margin-left: 20px;">FLEET PROFILE</span> <span style="margin-left: 20px;">TYRE AUDITS</span> <span style="margin-left: 20px;">TRACKER</span> <span style="margin-left: 20px;">SALES</span> <span style="margin-left: 20px;">ACTIVITIES</span> <span style="margin-left: 20px;">REPORTS</span>								
VEHICLE FITMENT HISTORY								
VEHICLE NUMBER <input type="text" value="ABC123"/>								
Date	Odometer	MP			Tire ID	Product	Avg RTD	Condition
				Rotation				
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	All 	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
3/23/2015	230,000	2			<u>ID3</u>	11/70R225 BS R173Z - 0	5.2	SEW
3/23/2015	230,000	5			<u>ID3</u>	11/70R225 BS R173Z - 0	4.0	SEW
3/23/2015	230,000	5			<u>ID3</u>	11/70R225 BS R173Z - 0	4.0	SEW
7/24/2014	40,000	4			<u>AA1</u>	1100R22 BS R297GZ - 0	7.7	RPW
7/24/2014	40,000	4			<u>AA1</u>	1100R22 BS R297GZ - 0	7.7	RPW
7/24/2014	40,000	5			<u>ID3</u>	11/70R225 BS R173Z - 0	7.7	SEW
7/24/2014	40,000	5			<u>ID3</u>	11/70R225 BS R173Z - 0	7.7	SEW

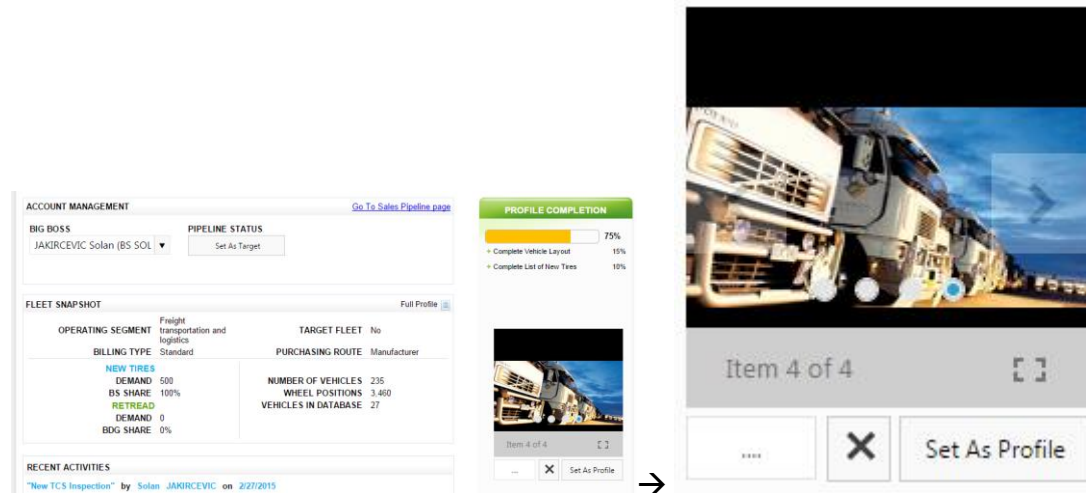

This page can be useful in multiple scenarios. For example, when running a test on a vehicle you can quickly see when previous tyres were removed (in case some tyres are still running and some are not).

### 3. IMPROVED FLEET PHOTO MANAGEMENT

You can now **delete photos** that you uploaded for a fleet as well as **set the photo you want to use as the “profile photo”** for the fleet.

Note that the photo you select as the profile photo will become the one used to illustrate the tile of the fleet in Toolbox TOUCH.

We’ve also made it **easier to navigate and browse photos** you have uploaded.

### 4. REPORT LOADING SPEED

Over the last 20 days we have gradually modified many of our reports to speed up their loading speed. Several of them could be rendered 50% faster with the new code.

As you know we are continuously working on optimizing the page loading speed in all areas of the application. If you feel some pages are slower than others please let us know.

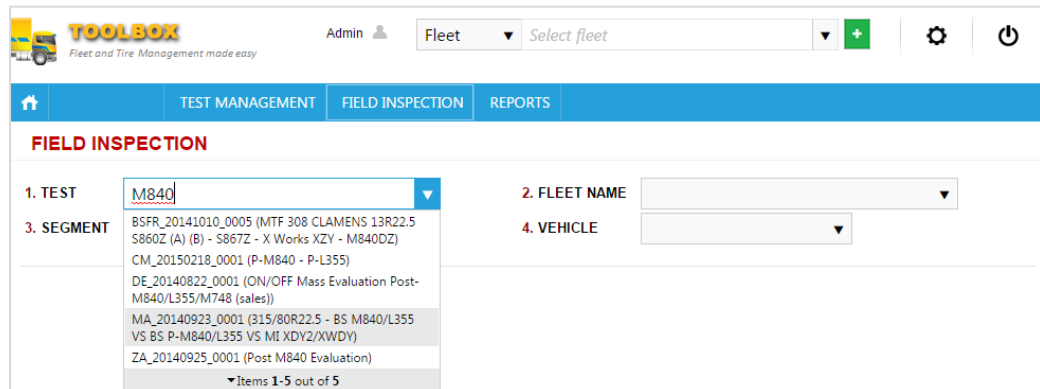

### 5. “ON THE FLY” TRANSLATION

We have completely revamped the way we handle the translation in Toolbox and we now have the ability to **directly translate any label in Toolbox via a dedicated web page and the change will be immediate for you** the next time you login.

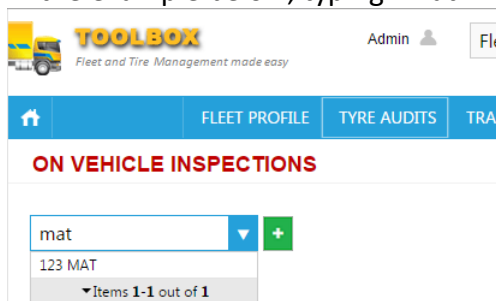

We therefore recommend you let us know any words that need improved translation. It’s never been easier for us to fix it!

## 6. MISCELLANEOUS:

- In PSR COUNT SURVEY: Add **more Speed Symbols** in the list
- In TTMS, added a new “Evaluation Item” called **Base Exposure**.
- In TTMS, max value for OTEH changed from **30mms to 50mms**
- In TTMS, added the possibility to make a **wildcard search** for the test name (instead of filtering by using the first letter only)

- In IN SERVICE AUDIT page, you can now make a **wildcard search for vehicles** (before you could only search using the first letters of the plate number). In the example below, typing “mat” will filter the vehicle 123 MAT.

- For European users only: adapted the selection in the menu SERVICE TYPE to match the European segmentation (note that you must select one of the European language under your personal profile in order to see this change)
- Fixed an issue where user roles and permissions (ex: Sales Manager) could be reset when resetting their password.
- Multiple other cosmetic fixes

# **TOOLBOX TOUCH ENHANCEMENTS**

***BRIDGESTONE***

## **IMPORTANT:**

**You must upgrade to the new version immediately from the Microsoft Store. The old version will not work anymore to sync**

### **1. MULTIPLE FIXES:**

- On low specs devices, a black screen was shown for as long as 20 seconds (on devices with very limited processor speed) when first loading Toolbox TOUCH. This loading time has been reduced.
- Some products under FLEET PROFILE were sometime shown blank
- Under specific conditions, the application could prevent the creation of new vehicles.
- The list of vehicle makers in PSR COUNT SURVEY was not refreshing properly
- Added more speed symbols in the page PSR COUNT SURVEY
- The system was allowing the record of incomplete products in offline mode which then lead to issues during synchronization. This problem has been fixed.
- Various data synchronization improvements

*For more information on these new features please contact your local Toolbox Champion.*

## DO YOU HAVE IDEAS TO SHARE WITH US FOR FUTURE RELEASES?

Four forum posts are shown, each with a user profile picture, a title, a status tag, and a timestamp. The status tags are: IN PROGRESS (orange), IMPLEMENTED (green), IN PROGRESS (orange), and PLANNED (blue).

## The Toolbox HelpDesk

Access a large range of supporting materials and share your ideas and suggestions in the Toolbox HelpDesk.

The screenshot shows the 'TOOLBOX HELP CENTER' website. It features a navigation bar with 'Home', 'Solutions', and 'Forums'. A search bar is present with the text 'How can we help you today?' and a 'SEARCH' button. Below the search bar, there are sections for 'Knowledge base' (with 'General' and 'FAQ (39)' sub-sections) and 'Community forums' (with 'Toolbox Forum' and 'Feature Requests (24)' sub-sections). The 'Community forums' section shows a list of recent posts with titles and timestamps.

Simply connect to [www.bstoolbox.com](http://www.bstoolbox.com) and click on HELPDESK from the main menu.

If you are already logged in to Toolbox you can also directly access the Helpdesk at [www.support.bstoolbox.com](http://www.support.bstoolbox.com)
