Syncing Orange Geek Email with iPhone/iPad Mail

iPhone mobile devices and iPad tablets have preinstalled email applications that allow you to send and receive emails from various domain servers. The email provided by Orange Geek with your specific domain can be set up on these devices if the correct settings are used. The following directions explain how to set up the email supplied by Orange Geek on your iPhone or iPad devices.

If you choose to set up your Orange Geek email on your iPhone/iPad, you will still be able to access your domain email on your Orange Geek webmail account. If there is ever an issue with your iPhone/iPad email application and it stops working or you are not seeing any new emails from your domain email after setting it up, go to the following to access your email directly:
