

Loading Weights for CrockMaster

Hand Operated CrockMaster Model 670 (902-424)

Motor Driven CrockMaster Model 680 (902-425)

The table below shows all available loading weights for the current CrockMasters.

The value on the loading weight is not a true value of the weight.

The value indicates the total pressure applied to the specimen; this is a combination of the loading weight and the arm of the CrockMaster.

N	g	Stock code
9	917.74	521-681
9.8	999.32	521-686
12	1223.66	521-682
19	1937.46	521-755
22.5	2294.36	521-683

Table of available loading weights for the current CrockMasters as of July 2016.
