GATEWAY

General

- Added keyboard shortcuts in the commissioning wizard to answer on/off questions. Commands are: left arrow = on, right arrow = off, up arrow = reset
- Result names should now wrap if too long in the search typeahead drop down.
- The commissioning wizard will now remember the last space you used.
- Users now have a copy to clipboard icon/link when hovering over IP address in the devices list.
- New display option for sort by Last Status Changed in the devices list.
- New diagnostics page that allows users to control spaces and unassigned devices in bulk for troubleshooting purposes.

Bug Fixes

- Fixed an issue that was prevent users from adding devices to a space when in ID mode on the devices search page.
- Fixed an issue that prevented the space page from loading if you tried to control a space before the event list was retrieved.
