PURPOSE

The Fall 2019 profile presents metrics that describe the 2019 incoming class, continuing students, and faculty/staff at Florida Polytechnic University.

Student data presented in this report was extracted from our Student Information System as of a census date of September 19, 2019 (unless otherwise stated). Human Resources data used payroll records extracted from Workday ERP within this same timeframe.

STUDENT ENROLLMENT

This section presents various metrics used by the Office of Institutional Research to track student enrollment at the Institution.

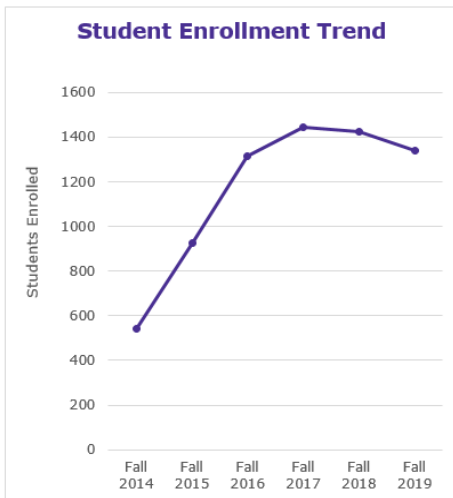

Total Headcount

The Fall 2019 unduplicated headcount is 1,339 students. Total enrollment (6,365) is defined as the duplicated headcount of students registered for classes. First year retention of first time in college students decreased by ten (10) percentage points from the previous year.

Total Registered Headcount	1,339
