Non-Relative Extended Family Member (NREFM): The Legal Definition. A “nonrelative extended family member” is defined as an adult caregiver who has an established familial relationship with a relative of the child or a familial or mentoring relationship with the child.

California’s approval process for relatives and NREFM is now known as the Resource Family Approval Program (RFA). This new process streamlines the approval process; it includes a comprehensive psychosocial assessment, home environment check and training for all families, including relatives. For more information, reach out to your California County ICPC liaison.
