This was part of the MOU agreement signed by your state with APHSA/AAICPC.
*CB Grantee States

NOTE: Legacy cases are NEICE cases created by other states BEFORE a new state joined NEICE. If a state is light blue (MCMS/NCH state), both states need to continue to work the legacy case created before the date the new state went live using the initial method for working the case until it is closed. The MCMS/CMS systems will alert you when this is the situation.
