

How to remove Smarketly App Builder Editor code from Shopify store

1. In file **Layout / theme.liquid** remove this code:

```
{{ 'smk-sections.css' | asset_url | stylesheet_tag }}
```

```
<script src="{{ 'smk-sections.js' | asset_url }}" defer="defer"></script>
```

2. In file **Templates / collection.liquid** remove this code:

```
{% section 'smk_collection_blocks' %}<div class='smk-sections-above-content'></div>
```

```
<div class='smk-sections-below-content'></div>
```

```
<div class='smk-sections-above-footer'></div>
```

3. In file **Templates / page.liquid** remove this code:

```
{% section 'smk_blocks' %}<div class='smk-sections-above-content'></div>
```

```
<div class='smk-sections-below-content'></div>
```

```
<div class='smk-sections-above-footer'></div>
```

4. In file **Templates / product.liquid** remove this code:

```
{% section 'smk_blocks' %}<div class='smk-sections-above-content'></div>
```

```
<div class='smk-sections-below-content'></div>
```

```
<div class='smk-sections-above-footer'></div>
```
