

CAT5E CABLE

Part Number: GS-3-CAT5

Blue, White-Blue
Orange, White-Orange
Green, White-Green
Brown, White-Brown

DESCRIPTION

The CAT5e Shielded Cable is made for conducting both power and data (350MHz for data applications) at the same time. The direct burial cable has eight (8) conductors and is encased in a gel-filled core with four (4) twisted wire pairs in different color combinations for easier installation. (RJ45 connectors shown above are NOT included.)

SPECIFICATIONS

- Conductor: Solid Bare Copper (Size - 24 AWG)
- Jacket: UV-resistant linear low-density polyethylene (LLDPE)
- Electrical: Rated for 60 Volts
- Shielding: Aluminum foil
- Environmental: -40°F to 158°F (-40°C to 70°C)
- Dimensions: Outer diameter of 0.25" (6.15 mm)
- Regulatory: RoHS Compliant
