

Error writing activation information:

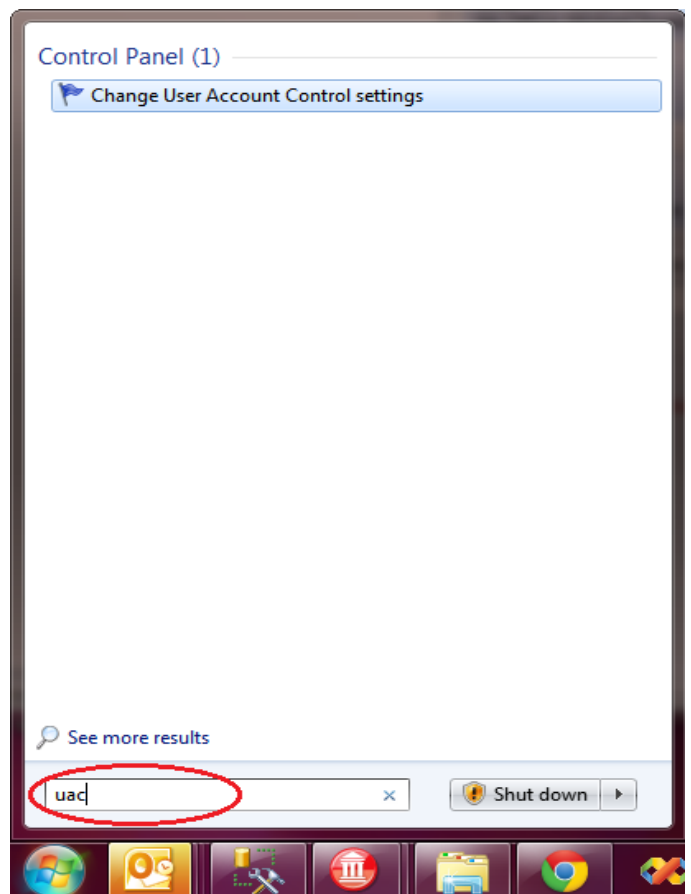

Operating System: Windows Vista /Windows 7

If you encounter the following prompt when installing Synchro, please follow the following steps to resolve the same.

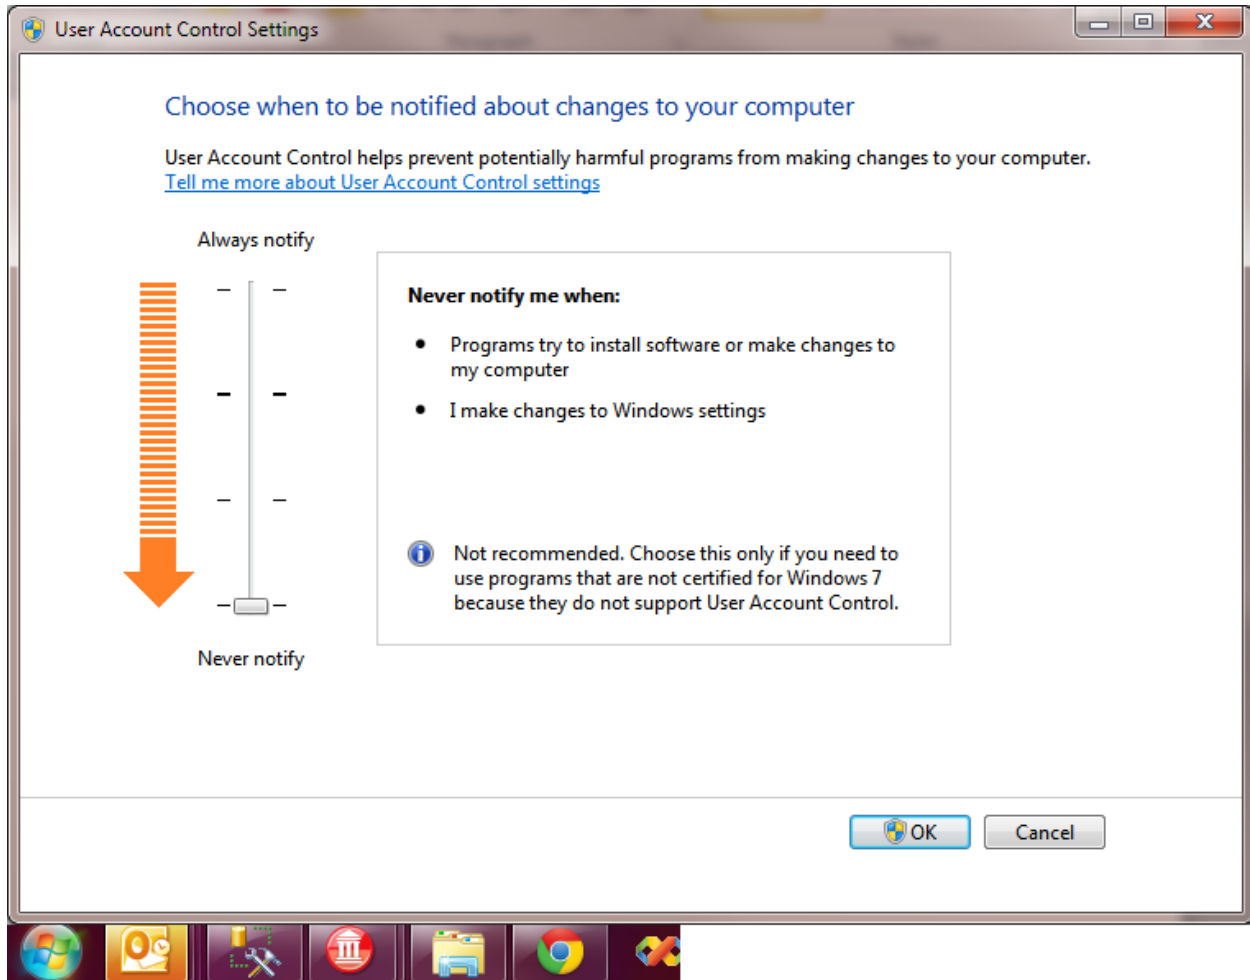

Step 1: Click on the "Start" button

Step 2: In the search bar, type in "uac", and
Select "Change User Account Control settings" from the results, as shown in the picture.

Step 3: On the following “User Account Control Settings” Window (as shown below), adjust the slider to the bottom, (at Never notify me).

Step 4: **Restart** the system for the changes to apply.
