

## HART Server Partner Program Software Development Kit for Customized HART Server and Clients

### Description

This program enables users to create and deliver customized HART Server installations to their customers. The developer may also customize the Generic Host client program for HART Server and deliver it to their customers. The kit contains source code and other tools to help the developer create entirely new client programs for HART Server.

### Features

- Complete source code for the Generic Host client program
- Redistributable HART Server 3.2.0 Installer package
- Source files for the HART Server help system
- Generator for compatible HART Server license keys
- Source code for simple HART Server clients

### System Requirements

- Windows 7 (Windows 32-bit OS)

### Kit Components

Qty	Item	Rev. No.
1	HART Server Partner Program Software	3.2
