Release Notes

VidyoDesktop™

for Windows® and Mac®

Anchor Version 3.6.5 (011)

June, 2016

Doc. Rev A

About VidyoDesktop™ for Windows® and Mac® Anchor Version 3.6.5 (011)

What's New in this Release

❖ **IMPORTANT CHANGE: Application Sharing No Longer Available on Windows 8 and Later**

 ◼ On Windows 8 and later, in certain scenarios when a user shares an application, other applications running on that user's machine may also be shared into the conference. Due to this privacy concern, we have limited sharing on Windows 8 and later to sharing the full display only. On Windows versions earlier than Windows 8 and on Mac OS X, this issue does not exist, therefore application sharing is still available.

❖ **Security Enhancement**

 ◼ For added security, VidyoDesktop now works with VidyoPortals™ set to support TLS 1.2 only.

Compatibility

To determine which version of the VidyoPortal your VidyoDesktop is compatible with, click Compatibility Matrix, log in to your account on the Vidyo Support Center, and refer to the Software Compatibility Matrix.

The following table defines the compatibility between VidyoDesktop for Windows and Mac version 3.6.5 and OS platforms.

VidyoDesktop	Compatible Platforms	
	Windows	**Mac OS X**
3.6.5	Windows XP 32-bit	Mac OS X 10.8.5
	Windows 7 32-bit and 64-bit	Mac OS X 10.9.5
	Windows 8 32-bit and 64-bit	Mac OS X 10.10.5
	Windows 8.1 32-bit and 64-bit	Mac OS X 10.11-10.11.5
	Windows 10 32-bit and 64-bit	

Resolved Issue

■ The title of the Configuration and Status window now correctly displays as "Konfiguration und status" instead of "Konfiguration und staat" when German is selected as the system language.

Note No new known issues were introduced in VidyoDesktop 3.6.5 since version 3.6.3.
