COURSE OVERVIEW

This course aims to continue to build upon the skills acquired in the ASL 1 course as students begin to acquire proficiency in American Sign Language using a comprehensive, systematic approach. Students will be completing lessons covering sentence types, time, duration, regularity, temporal aspect, classifiers, pluralization, distance, inflection, and describing rooms, objects, locations. Students will also be learning over 400 vocabulary words, about Deaf culture, and be evaluated on their abilities to effectively express themselves in American Sign Language.

GOALS AND OBJECTIVES

Students should leave this class with an intermediate understanding of American Sign Language vocabulary and grammar and be able to successfully discuss time, schedules, holidays, meals, physical descriptions, locations in signing space, activities, homes, belongings, and more.

TEXTS

1. Jay, Michelle. *Don't Just "Sign"... Communicate! A Student's Guide to Mastering ASL Grammar*. 2011. [MASLG]

COURSE REQUIREMENTS

Your final course grade will be based on your average percentage grade for the course quizzes and assignments.

READING ASSIGNMENTS: This course includes reading assignments and quizzes from the text listed above. The assignments can be found on the syllabus schedule below using the abbreviation **MASLG** as noted above. We recommend starting the readings for each Reading Assignment at the beginning of each week so you will be prepared to complete the quiz and move on when you reach it at the end of the week.

QUIZZES: There are 20 quizzes throughout the course to practice what you have learned and test your knowledge. You may take a quiz up to 5 times to improve your grade.

EXPRESSION VIDEO ASSIGNMENTS: Throughout this course you will be tested on your signing abilities by submitting links to videos of yourself signing each of three expression assignments or by submitting a written gloss of your signs for each assignment. Each assignment must also be submitted with an English script of what you signed for grading purposes.

RESEARCH PAPER: You will be responsible for writing a movie/book reaction research paper for this class. Papers must be more than 500 words on an appropriate Deaf-related movie or book. Some ideas for movies can be found in the Resources section of *Don't Just "Sign"... Communicate! A Student's Guide to ASL and the Deaf Community*. This paper is not a movie/book review – you must relate the material to what you have learned in the course as well as what you have learned about Deaf Culture. Here are some example ideas for topics: What you learned from the movie/book that can be related to what you've learned about Deaf Culture; which character you felt strongly for and why; which part of the story affected you the most and why; etc. If you use any quotes or ideas from any resources, they must be cited at the end of your paper. Papers will be checked for plagiarism and will result in a 0 grade if not cited properly.

EXPECTATIONS FROM STUDENT

Since this is an independent study course, self-discipline is crucial for success. To get the most out of this class, we recommend taking the time to truly learn and internalize each lesson. Don't rush through it. This means that when you learn vocabulary, take advantage of our vocabulary study books to better retain what you are learning. Try to get to the point where you can look at the list and know how to sign every word without watching the videos before moving on. This also means that when you learn a certain concept, strive to practice when away from your device. Find a study partner or someone with whom you can regularly sign. Practice, practice, practice! That is the best way to truly learn this language and to become proficient more quickly.
