

# How to Make a Simple Paper Flower

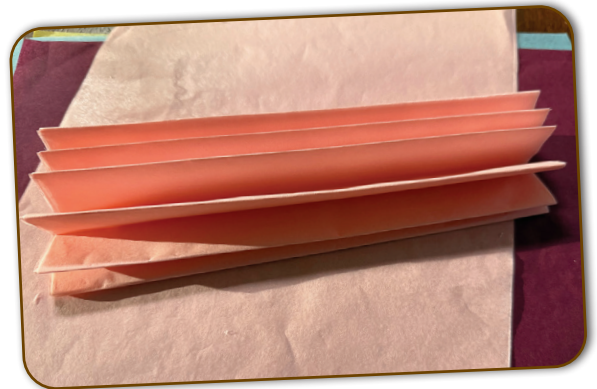

## Materials

- ❖ Brightly colored tissue paper (8.5" x 11")
- ❖ Twine
- ❖ Scissors

## Instructions

1. Stack four or five sheets of tissue paper (any colors you want) and fold like an accordion into one-inch segments (*right*).

2. Now, fold the tissue paper in half again (*left*), and tie a knot with twine (*below*).

3. Using scissors, cut halfway up the folds on one side only.

4. Carefully begin separating the sheets of tissue paper to create the flower. Once complete, it will look the ones below.

5. Make as many paper flowers as you need to decorate your *ofrenda*. Have fun!
