

Fruit Tree Food

All-Natural Fertilizer (2-3-2)

Directions

New Plantings:

- On small, newly planted trees, apply approx. 2 cups at planting time, from the trunk of the tree to just past the edge of the hole.

Existing Plantings:

- In the spring, apply at a rate of 1½ lbs. per 300 sq. ft., starting 18 in. away from the trunk and finishing 2 ft. past the drip line. For optimal results, follow with a second application in late July, using the same application rate and procedure. If planning only one application, apply at a rate of 3 lbs. per 300 sq. ft. in the spring.

Guaranteed Analysis

Total Nitrogen (N)	2%
0.01% Nitrate Nitrogen	
0.03% Ammoniacal Nitrogen	
1.96% Water-Insoluble Nitrogen	
Available Phosphate (P ₂ O ₅)	3%
Soluble Potash (K ₂ O)	2%

Derived from alfalfa meal, wheat middlings, steamed bone meal, distillers grain, meat and bone meal, kelp meal, soybean meal, fish meal and potassium sulfate.

Also contains non-plant food ingredients: humic acid, natural trace minerals, limestone and dried molasses.

Information regarding the contents and levels of metals in this product is available online at <http://agr.wa.gov>.

#78303

Net weight: 2 lbs.

(Approx. 7 cups, enough for 3 trees or 400 sq. ft.)
