

# SUMMIT SL350AC

COMFORT AND CONVENIENCE

## POPULAR ADD-ONS

Grocery basket

Flip-up arms

The SL350AC stairlift is engineered to operate directly on AC power. This direct power option means there's no need for batteries in the unit, helping to keep long term maintenance to a minimum. The backrest has three different settings, and the fold-up footrest adjusts to two different heights for the utmost in custom comfort. The spacious, wide seat features thick padding and attractive upholstery.

### FEATURES AND BENEFITS

- Runs on AC power, for long-term indoor use
- Constant-pressure rocker controls
- Seat and footrest fold to save space when not in use
- Cable drive system with slack cable brake
- Durable powder coat finish

*This lift is there when I need it. We have an old two story home and surgery required us to install a lift so that I can use the upstairs. I really like the fact that this lift needs minimal maintenance. No grease required and no battery replacement.*
