

2023 MANUFACTURING CONFERENCE

OCTOBER 24, 2023, WASHINGTON DC

Chuck Sutton
Vice President Global Sales & Marketing
REC Silicon

Chuck Sutton is responsible for the strategic function and management of an international team across a diversified product portfolio of silane gas, specialty gases, and electronic and solar grade polysilicon. With more than 30 years' experience in the semiconductor and PV polysilicon industries, he has worked extensively in product and process development as the industries matured and advanced.

As an active member of SEMI, BMTC, SEMA Coalition, and Ultra-Low Carbon Solar Alliance, he has worked closely with local, state, and federal elected officials on regulatory, trade, industry, and economic impact initiatives continuing the collaboration and advancement of semi and energy industries. He is also President of the Grant County Industrial Alliance, a coalition of local businesses working to ensure communities understand the value of large local industrial companies.
