

# A Connected World: Mitigating the Legal Risks and Liabilities of the Internet of Things

ACC - Chicago Chapter Downtown Lunch Program

Speaking Engagement

November 30, 2016 from 11:45 am to 1:30 pm (EST)

Chicago

Petterino's Chicago, IL

## Special Keynote Speaker

**Hardik Bhatt**  
**Secretary Designate**  
**Department of Innovation & Technology**  
**Illinois State CIO**

As companies seek to more efficiently connect network people, processes and operations through the internet of things (IoT), a greater understanding must be gained of the associated legal implications, risks and liabilities presented.

Join us for an educational and thought-provoking technology panel discussion with a group of seasoned in-house counsel from a broad range of companies and industries.

### Topics to include:

- Defining the Internet of Things and the top legal challenges it presents;
- Implications in contractual agreements that support technology and connectivity;
- Identifying the legal risks and managing/mitigating liabilities;
- Best practices in Implementing IoT processes, policies and procedures.

### Agenda:

11:45 am: Registration & Networking

12:00 pm: Lunch

12:15 pm: Presentation

1:15 pm: Q&A
