The Price is Right (Or is it?)

Wednesday, April 10

Regulators and plaintiffs continue targeting pricing and disclosure practices studied extensively by economists and marketers, including "junk fees," automatic renewals and negative option plans, and the use of "dark patterns." The panel will discuss U.S. and international laws governing these practices, enforcement and litigation trends and debates over economic methods used to analyze such practices.

Consumer Protection Year in Review

Thursday, April 11

The year 2023 was a busy one for regulators and self-regulators, grappling with key issues like dark patterns, claim substantiation, endorsements, health claims, consumer reviews, artificial intelligence, privacy, and more. Hear from the people in the trenches regarding current enforcement priorities and initiatives.
