

# AI and Machine Learning: An Overview of the Legal, Technical and Economic Issues

ABA Antitrust Section

Speaking Engagement

February 20, 2020 from 12:00 pm to 1:00 pm (EST)  
Washington, DC

This program aims to provide an overview of key legal, technical, and economic considerations surrounding the use of AI and machine learning. Partner [Aaron Burstein](#) will moderate a panel of experts who will provide overview and highlight issues that practitioners will want to consider more deeply as they work with clients who are using (or considering using) AI and machine learning in their products and services.
