

# AWRC Donation Drive

December 31, 2016

This past holiday season, Kelley Drye shared holiday cheer by participating in a donation drive for the Allen Women's Resource Center. The Allen Women's Resource Center is a shelter that offers temporary housing for women and children whose lives have been shattered by domestic violence. The Center gives these women a new beginning with a place to live for several months; a place of safety, support, education and transition. We were able to help the families at the Center by giving from our hearts this holiday season. The contributions included a winter coat and boots for every woman and child, three-piece luggage sets for every family, gift cards for every family and a monetary contribution to the overall upkeep of the Center. Each family's holiday season was a bit brighter thanks to the generosity of those who gave in this year's donation drive.
