

# Big Data, Big Decisions: Key Legal Considerations for the Collection and Use of Big Data

Strata + Hadoop World 2016

Speaking Engagement

September 28, 2016

Washington, DC

Partner [Kristi Wolff](#) presented "Big Data, Big Decisions: Key Legal Considerations for the Collection and Use of Big Data" at Strata + Hadoop World 2016. Whether it is through our wearable technology or our smart homes, collection and use of consumer information is proliferating. This session addressed the legal considerations relating to the use of big data as it relates to specific industries and is governed by specific laws, such as the Federal Trade Commission Act, health privacy under the Health Insurance Portability and Accountability Act, Gramm-Leach Bliley Act, Fair Credit Reporting Act, and the Children's Online Privacy Protection Act.
