

# CQ Roll Call Quotes Partner Paul C. Rosenthal on Mexican Sugar

April 29, 2014

Partner [Paul C. Rosenthal](#) was quoted in the *CQ Roll Call* article "Vilsack's Concern Invoked by Mexican Sugar Defenders." The article discusses how critics of an anti-dumping case against Mexico sugar hope Secretary of Agriculture Tom Vilsack's concerns will dissuade the U.S. International Trade Commission from finding in favor of the complaint. Mr. Rosenthal, who represents the Sweetener Users Association, which represents U.S. candy and food makers, commented that it is unlikely Vilsack will go to the ITC and make the argument that imports from Mexico aren't a cause for material injury, but the commission is aware of his concerns.
