

# Kelley Drye Represents Peerless Network, LLC in Patent Infringement Case

July 31, 2008

Kelley Drye is currently representing telecommunications company Peerless Network, LLC in a patent infringement lawsuit filed on behalf of Neutral Tandem LLC. In the response, Peerless Network argues that Neutral Tandem is attempting to limit competition in the telecommunications market by filing the patent infringement lawsuit against Peerless Network, a growing competitor in the field. Peerless Network is also bringing counterclaims against Neutral Tandem for damages under federal and state antitrust and unfair competition statutes.

Partner Hank T. Kelly and associate Michael R. Dover are working on this case.
