October 24, 2025

Even without new comprehensive privacy laws passed in 2025, regulators have kept busy. California finalized major CCPA updates—introducing risk assessments, cybersecurity audits, and automated decision-making rules—while amendments and new state laws in Maryland, Indiana, Kentucky, and Rhode Island take effect soon. Colorado also extended the deadline for its AI Act.

This episode breaks down what's changing, when key obligations begin, and why businesses need to start mapping their compliance timelines now.
