Chicago
(312) 857-7087

About

Mike Dover's practice focuses on providing practical legal advice to communications providers and innovative technology companies throughout the United States.

Prior to joining Kelley Drye, Mike worked as a telecommunications regional network engineer, network planner, and build-out project manager for a national mobile service provider in Illinois and Michigan. He understands the demands that business professionals and in-house counsel face.

As a trusted legal advisor, clients and colleagues alike depend on Mike's in-depth tech sector experience and his ability to anticipate and navigate complex legal structures related to existing and emerging technologies.

Mike's industry experience and tech know-how help him understand the details of complex existing and emerging technologies and offer his clients practical and actionable legal advice. Innovative communications providers and technology companies turn to Mike for advice on a variety of matters, from commercial business relationships and disputes to regulatory compliance.

Mike's experience includes:

- hardware and software applications, such as communications infrastructure, SaaS, and the Internet of Things (IoT)
- regulatory requirements, such as telecommunications and cable franchising, E911, Universal Service Fund rules and compliance, Universal Service Fund program compliance (including Lifeline, the Emergency Broadband Benefit, and the Affordable Connectivity Program)
- security, privacy, and data protection

Mike makes a point of understanding every aspect of his clients' goals and concerns. By getting the details right, he's able to effectively leverage the nuances of the technology involved and give advice suited to their needs.

Experience

Counsel relating to FCC, state regulatory, and local requirements for telecommunications providers, information service providers, video and cable providers, mobile service providers, resellers, and

wholesale facility providers.

Regulatory counsel relating to several asset acquisitions, stock acquisitions, and mergers of entities, including revisions to purchase agreements, authority and license transfer and assignment analyses, and state and local cable and open video agreement transfers and assignments analyses.

Negotiated and drafted international interconnection agreements and carrier access agreements.
