

# Podcast - Inside the TCPA: Autodialers

June 22, 2018

Kelley Drye introduces a new Full Spectrum series, "Inside the TCPA," which will offer a deeper focus on TCPA issues and petitions pending before the FCC. Each episode will tackle a single TCPA topic or petition that is in the news or affecting cases around the country. In this inaugural episode we discuss the definition of an autodialer or ATDS. This episode addresses the 2018 D.C. Circuit decision in ACA International and the FCC's new proceeding to examine the definition. With initial comments filed on June 13th, we analyze the principal arguments made by commenters and discuss whether Congress will weigh in on the matter. To listen to this episode, please [click here](#).\*

Future episodes of "Inside the TCPA" will tackle reassigned numbers, consent, and other topics raised before the FCC. This is a companion to Kelley Drye's comprehensive list of petitions before the Commission available in our monthly [TCPA Tracker](#) newsletter. Please contact us if we can assist you with any of the FCC proceedings.

[Kelley Drye's Full Spectrum](#) is available on iTunes. To subscribe, and keep up to date on the latest trends and topics in communications, simply find the built-in and undeletable podcast app, search "Kelley Drye Full Spectrum," look for our logo, and hit "subscribe."
